Introduction

About this Document

Beginning July 1, 2015, the Product Terms replaces both the Product List and the Product Use Rights (PUR) documents. All references to the Product List and PUR in Customer’s volume licensing agreements refer to the applicable sections of the Product Terms. The Product Terms describe the availability of Products and Professional Services through the Microsoft Volume Licensing Programs (previously conveyed through the Product List), as well as the use rights for Software Products (previously conveyed through the PUR). Terms of service for the Online Services referenced in this document are published in the Online Services Terms (OST) at <http://go.microsoft.com/?linkid=9840733>.

Products listed in the Product Terms are available as of the date on the Product Terms [Cover Page](#). Earlier versions of the Product Terms are available on <http://go.microsoft.com/?linkid=9839207>, including earlier versions of the Product List and PUR documents. Information on discontinued Microsoft products and services is available on <http://www.microsoftvolumelicensing.com>. Customers should contact their reseller or Microsoft account manager for information pertaining to regional availability of Microsoft products and Professional Services.

What this Document contains

The Product Terms includes the following sections:

- [Introduction](#), which includes a list of recent changes.
- [License Terms](#), which list the Universal License Terms and License Model Terms that apply to Software Products.
- [Software Products](#), which list all Software Product Entries.
- [Online Services Products](#), which list all Online Services Product Entries.
- [Glossary](#), which defines Attributes, Cell Values, Column Headings and other capitalized terms used in the Product Terms.
- The following appendices:
 - [Appendix A – CAL/ML Equivalent Licenses Table](#), which identifies CAL suites and Online Services subscription Licenses available that provide access to Server Products.
 - [Appendix B – Software Assurance](#), which describes rules on purchasing SA and additional benefits available to SA customers.
 - [Appendix C – Professional Services](#), which lists the Professional Services offered through Microsoft Volume Licensing.
 - [Appendix D – Program Agreement Supplemental Terms](#), which provides additional terms for Microsoft Volume Licensing Program Agreements.
 - [Appendix E – Product Promotions](#), which lists Product promotions that are not otherwise on the Price List.
 - [Appendix F - Storage Array Terms](#), which provided additional terms for Storage Array devices.
- [Index](#), which lists all the Products referenced in the Product Terms and identifies where they are located.

How to Navigate a Product Entry

Each Software Product Entry includes four sections: Program Availability, Product Conditions, Use Rights, and Software Assurance. Each Online Services Product Entry includes two sections: Program Availability and Product Conditions.

1. Program Availability identifies, for each Product, the offering type, point count (where applicable), and availability across volume licensing programs.

1. Program Availability

Products	DA	L	L/SA	SA	OL	S/S+	MPSA	UV/OVS	EA/EAS	OVS-ES	EES
Windows MultiPoint Server 2012 Standard	12/12	5	8	3	OL						A
Windows MultiPoint Server 2012 Premium	12/12	10	15	5							A

Annotations:
 - "Open License" points to the OL column header.
 - "Hovering a cursor over the column headings and cell values displays additional information" points to the OL cell.
 - "Point values are for one year" points to the L and L/SA cells.
 - "A green cell means the Product is available in the column's Program" points to the OL cell.

2. Product Conditions provides additional information related to acquiring the Product, such as prerequisites for purchase, prior versions, and the applicable Product Pool.

2. Product Conditions

Prior Version: Visual Studio 2012 (8/12)	Product Pool: Applications	Down Editions: N/A
Extended Term Eligible: N/A	Prerequisite: N/A	Prerequisite (SA): N/A
Promotions: N/A	Qualified User Exemption: N/A	Reduction Eligible: N/A
Reduction Eligible (SCE): All except MSDN OS	Transition Eligible: N/A	True Up Eligible: N/A
UTD Discount: N/A		

2.1 License Grant for SQL Server Parallel Data Warehouse Developer
 The Licensed Users under Visual Studio Professional with MSDN, Visual Studio Premium 2013 with MSDN, Visual Studio Test Professional with MSDN, and Visual Studio Test Professional 2013 with MSDN are deemed to have one license for SQL Server 2012 Parallel Data Warehouse Developer.

Annotations:
 - "Hovering a cursor over blue text displays additional information" points to the Product Pool cell.
 - "A gray cell means the attribute does not apply to the Product(s) listed in 1. Program Availability" points to the Down Editions cell.

3. Use Rights identifies the License Terms for each Software Product, including the Universal License Terms, the applicable License Model, and any Product-Specific License Terms. References in Customer’s volume licensing agreement to “Product Use Rights” refer to the terms included in the Use Rights section of each Software Product Entry. Terms for Online Services are in the OST.

3. Use Rights

License Terms: Universal Servers/CAL	Product-Specific License Terms: N/A	Additional Software: All
Client Access Requirement: All	External User Access Requirement: CAL	Included Technologies: N/A

Server Software Access table identifies the licenses needed to access the Servers or manage devices using the Products listed in 1. Program Availability

4. Software Assurance identifies terms and conditions associated with SA coverage.

4. Software Assurance

SA Benefits: Server	Disaster Recovery: N/A	Fail-Over Rights: All (except Developer and Parallel Data Warehouse)
License Mobility: All (except Developer and Parallel Data Warehouse)	Migration Rights: Product List – March 2014 and March 2015	Roaming Use Rights: N/A
Self Hosting: All (except Developer)		

4.1 SQL Server 2014 Enterprise Core – Unlimited Virtualization

Customer may run any number of instances of the server software in any number of OSEs on any Licensed Server on all of its core licenses for the Server.

Identifies where information on migration paths from one version of software to another version is located

License Terms

License Model Terms: To support the launch of Windows Server 2016 the Processor/CAL license model was replaced with the Per Core/CAL license model. To support the launch of System Center Server 2016 the Server Management Licenses section of the Management Server license model was updated to per core from per processor.

Software

Core Infrastructure Suite: Core Infrastructure Suite terms have been updated to support per core licensing associated with the launch of the 2016 versions of Windows Server and System Center Server. [Section 4](#) of the Product Entry provides information on the migration of licenses with SA coverage to per core licensing.

System Center: System Center Server 2016 terms have been updated to support per core licensing. [Section 4](#) of the Product Entry provides information on the migration of licenses with SA coverage to per core licensing. System Center Data Protection Manager, System Center Operations Manager, System Center Server Management Suite, and System Center Service Manager were removed, Academic customers looking for information on how to license and use these products should refer to the April 2015 Product Use Rights <http://go.microsoft.com/?linkid=9839206> and June 2015 Product List <http://go.microsoft.com/?linkid=9839207>.

Windows Desktop Operating System: Clarification added for Windows Embedded software designated "Point of Sale", "POS" or "Retail" that upgraded software with a POS application must have the POS application be the primary use of the software.

Windows MultiPoint Server: Windows MultiPoint Server 2012 Standard and Windows MultiPoint Server 2012 CAL were removed and Windows MultiPoint Server Premium is now available for Academic offerings only. [Section 4](#) of the Product Entry provides information on the migration of licenses with SA coverage to per core licensing.

Windows Server: Windows Server 2016 terms have been updated to support per core licensing. [Section 4](#) of the Product Entry provides information on the migration of licenses with SA coverage to per core licensing.

Online Service Specific Terms

Microsoft Azure Services: Microsoft Azure Hybrid Use Benefit has been updated to support the launch of Windows Server 2016.

Microsoft Azure Plans: Azure Information Protection Premium replaces Azure Rights Management Premium. Operations Management Suite E1 and E2 Add-ons replace Operations Management Suite Standard Edition and Datacenter Edition Add-ons respectively.

Enterprise Mobility + Security: Enterprise Mobility + Security replaces Enterprise Mobility Suite.

Secure Productive Enterprise: Secure Productive Enterprise replaces Enterprise Cloud Suite.

Microsoft Intune: The Microsoft Intune Product Entry has been moved to the Other Online Services section.

Glossary

Definitions: [Hyper-V Container](#) and [Windows Server Container](#) were added as defined terms.

Appendix A

CAL/ML Equivalent License table: Windows MultiPoint Server 2012 Standard was removed from the table.

Appendix B

Software Assurance Benefits: The Calculating Software Assurance Benefits Points table was updated to include Windows Server and System Center.

[Table of Contents](#) / [Glossary](#) / [Index](#)

License Terms

All instances of the “Product Use Rights” in Customer’s volume licensing agreement refer to the terms identified in the “Use Rights” section of each Product Entry. For each Product, this includes the Universal License Terms, applicable License Model Terms and any Product-Specific License Terms in the Product Entry.

For Online Services, references to “Product Use Rights” in Customer’s volume licensing agreement refer to the OST. If a software Product includes both software and online services, the online services will be governed by the terms in the OST and all the software will be governed by these License Terms.

Universal License Terms

Universal License Terms apply to all software Products licensed through Microsoft Volume Licensing (except where specifically noted in the License Model Terms and/or the Product-Specific License Terms).

1. Definitions

Terms used in the Product Terms but not defined in the [Glossary](#) will have the definition provided in Customer’s volume licensing agreement.

2. Customer’s Use Rights

If Customer complies with its volume licensing agreement, it may use the software as expressly permitted in the Product Terms. Customer needs a [License](#) for each Product and separately licensed functionality used on a device or by a user.

3. Rights to Use Other Versions and Lower Editions

For any permitted copy or [Instance](#), Customer may create, store, install, run or access in place of the version licensed, a copy or [Instance](#) of a prior version, different permitted language version, different available platform version (for example, 32 bit or 64 bit) or a permitted lower edition. The use rights for the licensed version still apply. Licenses for prior versions and lower editions do not satisfy the licensing requirements for a Product.

4. Third Party Software

The software may contain third party proprietary programs or components that are licensed under separate terms that are presented to Customer during installation or in the "ThirdPartyNotices" file accompanying the software. The software may also contain third party open source programs that Microsoft, not the third party, licenses to Customer under Microsoft’s license terms.

5. Pre-Release Code, Updates or Supplements, Additional Functionality

Microsoft may offer updates or supplements to the Products. Customer may use the updates or supplements to the Products, pre-release code, additional functionality and optional add-on services to the Products, subject to specific terms (if any) that accompany them. Some Products require automatic updates, as described in the Product-Specific License Terms.

6. Restrictions

Customer may not (and is not licensed to) use the Products to offer commercial hosting services to third parties, work around any technical limitations in the Products or restrictions in Product documentation, or separate the software for use in more than one [OSE](#) under a single License (even if the OSEs are on the same physical hardware system), unless expressly permitted by Microsoft. Rights to access the software on any device do not give Customer any right to implement Microsoft patents or other Microsoft intellectual property in the device itself or in any other software or devices.

7. Software Assurance

SA coverage may grant additional use rights to Customer. These additional rights end at the expiration of the SA coverage for the [License](#), unless otherwise noted in the benefit description.

8. Outsourcing Software Management

Customer may install and use licensed copies of the software on [Servers](#) and other devices that are under the day-to-day management and control of third parties, provided all such Servers and other devices are and remain fully dedicated to Customer’s use. Customer is responsible for all of the obligations under its volume licensing agreement regardless of the physical location of the hardware upon which the software is used.

9. License Assignment and Reassignment

Before Customer uses software under a [License](#), it must assign that [License](#) to a device or user, as appropriate. Customer may reassign a [License](#) to another device or user, but not less than 90 days since the last reassignment of that same [License](#), unless the reassignment is due to (i) permanent hardware failure or loss, (ii) termination of the user’s employment or contract or (iii) temporary reallocation of [CALs](#), Client [Management Licenses](#) and user or device [SLs](#) to cover a user’s absence or the unavailability of a device that is out of service. Customer must remove the software or block access from the former device or to the former user. SA coverage and any Licenses that are granted or acquired in connection with SA coverage may be reassigned only with the underlying qualifying [License](#). Different terms apply to the reassignment of Windows desktop operating system per device licenses and SA coverage, as detailed in the [Windows Product Entry](#).

10. Technical Measures

Microsoft may use technical measures to enforce terms that restrict Customer's use of certain versions of Product and may verify compliance with those terms as provided in Customer's volume license agreement. Some Products are protected by technological measures and require activation or validation, as well as a product key, to install or access them.

10.1 Activation and validation

Successful activation or validation verifies that a software Product has been correctly installed, the product key is not stolen, and that no changes have been made to validation, licensing, or activation functions of the software. Customer's right to use the software after the time specified in the software Product may be limited unless it is activated. Customer is not licensed to continue using the software if it has unsuccessfully attempted to activate. Each device that has not activated by a Key Management Service (KMS) must use a Multiple Activation Key (MAK). Customer may not circumvent activation or validation.

10.2 Product Keys

An assigned product key is required for licensed use of the software. All product keys are Confidential Information of Microsoft. Notwithstanding anything to the contrary in Customer's volume licensing agreement, Customer may not disclose product keys to third parties. Customer may not provide unsecured access to its key management service (KMS) machines over an uncontrolled network. In the event of unauthorized use or disclosure of product keys or KMS keys, Microsoft may prevent further activations, deactivate or block product keys from activation or validation, and take other appropriate action.

11. Notices

Where indicated in the Use Rights section of each Product Entry, the following notices apply:

11.1 Internet-based Features

Software Products may contain features that connect and send information over the Internet, without additional notice to Customer, to Microsoft's systems and those of its Affiliates and service providers. Use of that information is described in the privacy statement available in each software Product.

11.2 Bing Maps

The Product may include use of Bing Maps. Any content provided through Bing Maps, including geocodes, can only be used within the product through which the content is provided. Customer's use of Bing Maps is governed by the Bing Maps End User Terms of Use available at <http://go.microsoft.com/?linkid=9710837> and the Bing Maps Privacy Statement available at <http://go.microsoft.com/fwlink/?LinkID=248686>.

11.3 H.264/AVC Visual Standard, the VC-1 Video Standard, and the MPEG-4 Part 2 Visual Standard

This software may include H.264/AVC, VC-1, and MPEG-4 Part 2 visual compression technology. MPEG LA, L.L.C. requires this notice: THIS PRODUCT IS LICENSED UNDER THE AVC, THE VC-1, THE MPEG-4 PART 2 VISUAL PATENT PORTFOLIO LICENSES FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER TO (i) ENCODE VIDEO IN COMPLIANCE WITH THE ABOVE ("VIDEO STANDARDS") AND/OR (ii) DECODE AVC, VC-1, MPEG-4 PART 2 VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE SUCH VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE www.mpegla.com. For clarification purposes, this notice does not limit or inhibit the use of the software for normal business uses that are personal to that business which do not include (i) redistribution of the software to third parties, or (ii) creation of content with the VIDEO STANDARDS compliant technologies for distribution to third parties.

12. Font Components, Images, and Sounds

While Customer runs the software, it may access and use icons, images, sounds and media included with the software only from a [Licensed Device](#) and may use the fonts included with or installed by that software to display and print content. Customer may only embed fonts in content as permitted by the embedding restrictions in the fonts; and temporarily download them to a printer or other output device to print content.

13. Included Technologies

Products may include other Microsoft technology components subject to their own license terms, as indicated in the Use Rights section of each Product Entry. If separate terms for these components are not addressed in the Product-Specific License Terms, they may be found in a separate folder in the Product's installation directory or through the Product's unified installer.

14. Benchmark Testing

Customer must obtain Microsoft's prior written approval to disclose to a third party the results of any benchmark test of any [Server](#) Product or Microsoft Desktop Optimization Pack. This does not apply to Windows Server.

15. Multiplexing

Multiplexing or pooling to reduce direct connections with the software does not reduce the number of required [Licenses](#).

16. Administrative and Support Rights

Customer may allow access to server software running in any permitted [OSE](#) by two users without CALs solely for administrative purposes. Customer may also allow remote access to other Products solely for purposes of providing technical product support to [Licensed Users](#) or on [Licensed Devices](#).

17. Distributable Code

The software may include code that Customer is permitted to distribute in programs it develops if it complies with the terms below.

17.1 Right to Use and Distribute

The code and text files listed below are “Distributable Code.”

- REDIST.TXT Files: Customer may copy and distribute the object code form of code listed in REDIST.TXT files and in OTHER-DIST.TXT files, as well as any code marked as “Silverlight Libraries”, Silverlight “Client Libraries” and Silverlight “Server Libraries”.
- Sample Code, Templates, and Styles: Customer may modify, copy, and distribute the source and object code form of code marked as “sample”, “template”, “simple styles” and “sketch styles.”
- Third Party Distribution: Customer may permit distributors of its programs to copy and distribute the Distributable Code as part of those programs.
- Image Library: Customer may copy and distribute images, graphics and animations in the Image Library as described in the software documentation.

17.2 Distribution Requirements

If Customer distributes any Distributable Code. Customer must:

- Only distribute it with Customer’s programs, where Customer’s programs provide significant primary functionality to the Distributable Code;
- require distributors and external end users to agree to terms that protect the Distributable Code at least as much as Customer’s volume licensing agreement, including the Product Terms;
- indemnify, defend, and hold harmless Microsoft from any claims, including attorneys’ fees, related to the distribution or use of Customer’s programs, except to the extent that any claim is based solely on the Distributable Code included in Customer’s programs.

17.3 Distribution Limitations

Customer may not:

- alter any copyright, trademark or patent notice in the Distributable Code;
- use Microsoft’s trademarks in Customer’s programs’ names or in a way that suggests its programs come from or are endorsed by Microsoft;
- distribute Distributable Code in or with any malicious or, deceptive programs or in an unlawful manner; or
- modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An Excluded License is one that requires, as a condition of use, modification or distribution, that the code be disclosed or distributed in source code form, or that others have the right to modify it.

18. Software Plus Services

Microsoft may provide services with Products through software features that connect with Microsoft or service provider computer systems over the Internet. It may change or cancel the services at any time. Customer may not use the services in any way that could harm them or impair anyone else’s use of them. Customer may not use the services to try to gain unauthorized access to any service, data, account or network by any means.

[Table of Contents](#) / [Glossary](#) / [Index](#)

License Model Terms

The License Model for each Product is identified in the Use Rights section of the Product Entry. License Model terms apply to all software Products licensed under that License Model, as specified in the Product Entry and subject to any exceptions and other terms noted in the Product-Specific License Terms.

Desktop Applications

Device License

1. Customer may install any number of copies of the software on a [Licensed Device](#) and on any [Server](#) dedicated to Customer’s use for each [License](#) it acquires.
2. Unless Customer licenses the software as an Enterprise Product or on a company-wide basis, it may also install the software on a single portable device for use by the [Primary User](#) of the [Licensed Device](#).
3. Any number of users may use the software running on a [Licensed Device](#), but only one user may access and use the software at a time.
4. Remote use of the software running on a [Licensed Device](#) is permitted for the [Primary User](#) from any device or for any other user from another [Licensed Device](#).
5. Remote use of the software running on a [Server](#) dedicated to Customer’s use is permitted for any user from a [Licensed Device](#).

Media Elements and Templates

Microsoft grants Customer a license to copy, distribute, perform and display media elements (images, clip art, animations, sounds, music, video clips, templates and other forms of content) included with the software and the Office web apps in projects and documents, except that Customer may not sell, license or distribute copies of any media elements by themselves or as a product if the primary value of the product is the media elements.

Desktop Operating Systems

Device License

1. Customer may install one copy of the software on a [Licensed Device](#) or within a local virtual hardware system on a [Licensed Device](#) for each [License](#) it acquires.
2. Customer may use the software on up to two processors.
3. Local use is permitted for any user.
4. Remote use is permitted for the [Primary User](#) of the [Licensed Device](#) and for any other user from another [Licensed Device](#) or a Windows VDA [Licensed Device](#).
5. Only one user may access and use the software at a time.
6. Customer may connect up to 20 devices to the [Licensed Device](#) for file sharing, printing, Internet Information Services, Internet Connection Sharing or telephony services.
7. An unlimited number of connections are allowed for KMS activation or similar technology.

Adobe Flash Player

The software may include a version of Adobe Flash Player. Customer agrees that its use of the Adobe Flash Player is governed by the license terms for Adobe Systems Incorporated at <http://go.microsoft.com/fwlink/?linkid=248532>. Adobe and Flash are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.

Per Core/CAL

Server Licenses (per core)

1. Customer may use the server software on a [Licensed Server](#), provided it acquires sufficient [Server](#) licenses as described below.
2. The number of [Licenses](#) required equals the number of [Physical Cores](#) on the [Licensed Server](#), subject to a minimum of 8 [Licenses](#) per [Physical Processor](#) and a minimum of 16 [Licenses](#) per [Server](#).
3. Datacenter edition permits use of the server software in any number of [OSEs](#) on the [Licensed Server](#).
4. Standard edition:
 - Standard edition permits use of the server software in two [OSEs](#) on the [Licensed Server](#).
 - Standard edition permits use of one [Running Instance](#) of the server software in the [Physical OSE](#) on the [Licensed Server](#) (in addition to two [Virtual OSEs](#)), if the [Physical OSE](#) is used solely to host and manage the [Virtual OSEs](#).
 - Customer may assign additional Standard edition [Licenses](#) to the [Licensed Server](#) equal to the number specified in 2 above and use the server software in two additional [OSEs](#) on the [Licensed Server](#).
5. As long as the total numbers of [Licenses](#) and [Physical Cores](#) remains the same, [License](#) reassignment is permitted any time Customer repartitions a single piece of hardware.
6. As a one-time alternative to assigning base [CALs](#) per user or per device, a number of base [CALs](#) may be dedicated to an [Instance](#) of the server software on a single [Server](#) (per server mode) to permit up to the same number of users or devices to concurrently access that [Instance](#).

Access Licenses

1. Except as described here and noted in the [Product-Specific License Terms](#), all server software access requires [CALs](#) or [CAL Equivalent Licenses](#).
2. [CALs](#) are not required for access by another [Licensed Server](#).
3. [CALs](#) are not required to access server software running a [Web Workload](#) or [HPC Workload](#).
4. [CALs](#) are not required for access in a [Physical OSE](#) used solely for hosting and managing [Virtual OSEs](#).

Server/CAL

Server Licenses (per Instance)

Customer may use one [Running Instance](#) of server software in either a [Physical OSE](#) or [Virtual OSE](#) on a [Licensed Server](#) for each [License](#) it acquires.

Access Licenses

1. Except as described here and noted in the [Product-Specific License Terms](#), all server software access requires [CALs](#) or [CAL Equivalent Licenses](#).
2. [CALs](#) are not required for access by another [Licensed Server](#).

Per Core

For Products under the Per Core License Model, Customer must choose either Licensing by [Physical Core](#) on a [Server](#) or Licensing by Individual [Virtual OSE](#). The terms for each are set forth below.

Server Licenses (per core) – Licensing by Physical Core on a Server

1. Customer may use the server software on a [Licensed Server](#), provided it acquires sufficient [Server](#) Licenses as described below.
2. The number of [Licenses](#) required equals the number of [Physical Cores](#) on the [Licensed Server](#) subject to a minimum of four [Licenses](#) per [Physical Processor](#).
3. For Enterprise edition, Customer may use any number of [Running Instances](#) of the server software on the [Licensed Server](#) in a number of [Physical OSEs](#) and/or [Virtual OSEs](#) equal to the number of licenses assigned to it.
4. For each additional Enterprise edition [License](#) that Customer assigns beyond the number of [Licenses](#) required under paragraph 2 above, it may use of the server software in one additional [OSE](#) on the [Licensed Server](#).
5. For other editions, Customer may use any number of [Running Instances](#) of the server software only in the [Physical OSE](#) on the [Licensed Server](#).

Server Licenses (per core) – Licensing by Individual Virtual OSE

1. Customer may use any number of [Running Instances](#) of the server software in any [Virtual OSE](#) on the [Licensed Server](#), provided it acquires sufficient [Licenses](#) as described below.
2. The number of [Licenses](#) required equals the number of [Virtual Cores](#) in the [Virtual OSE](#), subject to a minimum of four [Licenses](#) per [Virtual OSE](#).
3. If any [Virtual Core](#) is at any time mapped to more than one [Hardware Thread](#), Customer needs a License for each [Hardware Thread](#) to which it is mapped.

Management Servers

Management Licenses

The Management License version, not the version of software used, determines the version of applicable License Terms (including use under downgrade rights notwithstanding terms to the contrary).

Server Management Licenses (per core)

1. Customer may use the software on any [Server](#) dedicated to its use to [Manage OSEs](#) on a [Licensed Server](#), provided it acquires sufficient [Server](#) Licenses as described below.
2. The number of [Licenses](#) required equals the number of [Physical Cores](#) on the [Licensed Server](#), subject to a minimum of 8 [Licenses](#) per [Physical Processor](#) and a minimum of 16 [Licenses](#) per [Server](#).
3. Datacenter edition permits use of the server software to Manage any number of [OSEs](#) on the [Licensed Server](#).
4. Standard edition:
 - Standard edition permits use of the software to Manage up to two [OSEs](#) on the [Licensed Server](#).
 - Standard edition permits Management of the [Physical OSE](#) on the [Licensed Server](#) (in addition to two [Virtual OSEs](#)), if the [Physical OSE](#) is used solely to host and Manage [Virtual OSEs](#).
 - Customer may assign additional Standard edition [Licenses](#) to the [Licensed Server](#) equal to the number specified in 2 above and Manage two additional [OSEs](#).
5. [OSEs](#) running [Server](#) operating systems require Server [Management Licenses](#).

Client Management Licenses (per OSE or user)

1. Customer may use the software to Manage an [OSE](#) on a [Licensed Device](#) or [OSEs](#) on devices used by a [Licensed User](#) for each Client Management License it acquires.
2. [OSEs](#) running operating systems other than [Server](#) operating systems require Client Management Licenses or [Management License Equivalent Licenses](#).
3. The number of Client Management Licenses required depends on [License](#) type (per [OSE](#) or user) assigned.
4. Management of an [OSE](#) accessed by more than one user requires an [OSE](#) Client Management License or a User Client Management License for each user.

Management Licenses are not required for:

1. [OSEs](#) in which there are no [Running Instances](#) of software;
2. Any of Customer's network infrastructure devices functioning solely for the purpose of transmitting network data and not running Windows Server software;
3. Conversion of [OSEs](#) from Physical to Virtual; or
4. Any device solely monitored or managed for the status of its hardware components with respect to system temperature, fan speed, power on/off, system reset or CPU availability.

Data Sets

Customer may not copy or distribute any data set (or any portion of a data set) included in the software.

Specialty Servers

Server Licenses (per Instance)

Customer may use one [Running Instance](#) of server software in either a [Physical OSE](#) or [Virtual OSE](#) on a [Licensed Server](#) for each [Server License](#) it acquires

Developer Tools

User Licenses

1. One [Licensed User](#) may use any number of copies of the software and any prior version on any device dedicated to Customer's use for each User License it acquires.
2. [Licensed Users](#) may use the software for evaluation and to develop, test, and demonstrate Customer's programs. These rights include the use of the software to simulate an end user environment to diagnose issues related to its programs.
3. The software is not licensed for use in a [Production Environment](#).

Additional License Terms for MSDN Subscriptions

In addition to the rights in the License Model Terms, Customer may allocate an MSDN subscription for each [License](#) it acquires. For MSDN subscriptions, the "Software" means software made available to Customer's subscription level via MSDN Subscriber Downloads. Any online service made available with Customer's MSDN subscription may not be used in a [Production Environment](#).

Running the Software on Microsoft Azure Platform Services

1. The [Licensed User](#) may run the Software on Microsoft Azure Platform Services during the term of its MSDN subscription.
2. The use of the Software remains subject to the terms and conditions of Customer's volume licensing agreement and any terms that come with the Software.
3. The Developer Tools License Model Terms apply to the use of the Software and Azure MSDN Dev/Test offers, except that the [Licensed User](#) may not run Office Professional Plus or System Center Virtual Machine Manager for production use on Microsoft Azure Platform Services.

Additional Requirements

To run Software on Microsoft Azure Platform Services Customer must activate its MSDN subscription by linking its Microsoft account to the MSDN subscription.

Acceptance Testing and Feedback

Customer's end users may access the Software, and online services made available with Customer's MSDN subscription, to perform acceptance tests or to provide feedback on its programs.

Windows Server 2016 Remote Desktop Services

Up to 200 anonymous users at a time may use the Remote Desktop Services feature of the Windows Server software to access online demonstrations of Customer's programs.

Windows Embedded Product

Each Windows Embedded Product is licensed under the terms that come with it, including any Microsoft obligations related to defense of infringement and misappropriation claims. These terms replace the corresponding terms in Customer's volume licensing agreement. Each [Licensed User](#) may install and use an unlimited number of copies of the licensed Windows Embedded Product.

2.1 Process to Determine Applicable Use Rights for CAL Suites

A CAL Suite License is version-less and the access rights are determined by the status of the SA coverage on it. If SA coverage lapses, access rights under perpetual Licenses are determined based on the use rights in effect for the versions that were current prior to the lapse.

2.2 Components of CAL Suite

Refer to [Appendix A](#), CAL/Management License Equivalent Licenses chart for the current components of the Core CAL Suite and the Enterprise CAL Suite.

2.3 Online Services Included with Enterprise CAL Suite

Enterprise CAL Suite with active SA coverage also includes the rights to Exchange Online Archiving for Exchange Server, Data Loss Prevention, and Exchange Online Protection. For customers under Microsoft Business Agreements dated prior to October 2010 and Enrollments dated prior to July 2011, purchase and use of the Online Services included with Enterprise CAL Suite is governed by the Supplemental Terms for Online Services used with Software – Legacy Agreements in Appendix A – Program Agreement Supplemental Terms in the June 2015 Product List at <http://go.microsoft.com/?linkid=9839207>.

2.4 CAL Suite Bridge for O365, for O365 & Intune, and for Intune

2.4.1 CAL Suite Bridges Requirements

A CAL Suite Bridge may be required when replacing a CAL Suite with a comparable software and Online Service combination. When a CAL Suite Bridge is required the number of CAL Suite Bridge User SLs should be the same number of User SLs for the qualifying Online Service.

A CAL Suite Bridge is an Enterprise Product, and may only be licensed in conjunction with its qualifying Online Service to satisfy the Organization Wide requirement of either that CAL Suite Bridge or its parent CAL Suite.

*CAL Suite Bridge From SA User SLs require fully paid, perpetual Licenses with active SA for the equivalent Parent CAL Suite. CAL Suite Bridge From SA User SL may also be purchased instead of Subscription Licenses for the Products if the Subscription License was purchased at least three years prior to the purchase of the From SA User SL.

2.4.2 Student Only CALs (Academic Open License and Academic Select)

Student Only CALs are restricted to license student owned PCs or institution owned PCs dedicated to an individual student and are not for use in labs or classrooms.

3. Use Rights

License Terms: Universal	Product-Specific License Terms: All editions	Additional Software: N/A
Client Access Requirements: N/A	External User Access Requirements: N/A	Included Technologies: N/A
Notices: N/A		

3.1 Applicable Use Rights

Customer's use of CIS Suite software is governed by the applicable License Terms for the individual Products comprising the CIS Suite software as modified by these License Terms. For each [Server](#) on which Customer runs CIS Suite software, the number of [Licenses](#) required equals the number of [Physical Cores](#) on the [Licensed Server](#), subject to a minimum of 8 [Licenses](#) per [Physical Processor](#) and a minimum of 16 [Licenses](#) per [Server](#). Customer may assign additional CIS Suite Standard edition [Licenses](#) to the [Licensed Server](#) equal to the number specified in the prior sentence and run the server software in two additional [OSEs](#) and Manage two additional [OSEs](#) on the [Licensed Server](#).

3.2 Server License and Management License Assignment

For purposes of applying License Terms for Windows Server and System Center to Customer's use of CIS Suite, Customer is deemed to have assigned to the [Licensed Server](#) Windows Server and System Center Licenses equal to the number of CIS Suite [Licenses](#) assigned to the [Server](#).

3.3 Additional Terms

Customer may run a prior version or a down edition of any of the individual Products included in the CIS Suite as permitted in the license terms for that Product in the Product Terms.

All other requirements to acquire and assign [External Connector Licenses](#), [CALs](#) and [Management Licenses](#) to users or devices for access and management, as set forth in the Product Terms, remain in full force and effect.

4. Software Assurance

4.1 Microsoft Azure Hybrid Use Benefit

Refer to [Section 7. Microsoft Azure Hybrid Use Benefit](#) of the Microsoft Azure Product Entry for deploying Windows Server images on Microsoft Azure.

4.2 Nano Server

Customers with active SA on CIS Suite Standard or Datacenter [Licenses](#) may install, use, and Manage the Nano Server deployment option.

4.3 System Center Configuration Manager Current Branch Rights

Customers with active SA on CIS Suite Standard or Datacenter [Licenses](#) may install and use the Current Branch option of System Center Configuration Manager.

4.4 Software Assurance Rights and Benefits for Subscription Licenses

Any Subscription License Customer acquires under SCE is granted the same SA rights and benefits during the term of the subscription as [Licenses](#) with SA coverage.

4.5 Server and Cloud Enrollment (SCE) - Right to manage OSEs on Microsoft Azure under CIS Suite Licenses

SCE Customers who have met the enrollment coverage requirements and are licensed for and using CIS Suite to manage [OSEs](#) in their own data centers, may also use System Center software licensed under CIS Suite to manage their qualifying [Virtual OSEs](#) running within Microsoft Azure. For every 16 CIS Suite core [Licenses](#) or each CIS Suite processor [License](#) covered by a customer's SCE, the customer may manage up to 10 qualifying [Virtual OSEs](#) running within Microsoft Azure. Qualifying [Virtual OSEs](#) include:

- Windows Server Virtual Machine Instances (including Instances deployed under Azure HUB)
- Cloud Services instances (Web role and Worker role)
- Storage Accounts
- SQL Databases
- Websites instances

4.6 Software Assurance Renewal Offer for Windows Server and System Center

Customers who have [Licenses](#) with active SA for both of the Products in Column A of the table below may, upon expiration of that coverage, acquire SA for the corresponding CIS Suite in Column B without acquiring the underlying CIS Suite [License](#).

Column A	Column B
Windows Server Standard (2-pack Core License) System Center Standard (2-pack Core License)	Core Infrastructure Server Suite Standard (2-pack Core License)
Windows Server Datacenter (2-pack Core License) System Center Datacenter (2-pack Core License)	Core Infrastructure Server Suite Datacenter (2-pack Core License)

Customers who license and use CIS Suite (Standard or Datacenter) under this offer may no longer use software under their qualifying Licenses shown in Column A. Licenses and SA acquired under a subscription agreement do not qualify for this offer.

4.7 Use Rights and License Grants Associated with Change in Licensing Model

CIS Suite with 2012 R2 product versions was the last version of CIS Suite licensed per processor. Customers with SA on processor licenses at the launch of CIS Suite with 2016 product versions are eligible for certain use rights and grants. For purposes of these provisions, “Eligible License” means a CIS Suite processor License with SA obtained by Customer as of October 1, 2016 and any CIS Suite processor License with SA subsequently obtained under the same agreement through a programmatic true-up.

4.7.1 Use Rights During Current Term

Customers with Eligible Licenses may upgrade to and use the same edition of CIS Suite with 2016 product versions in place of CIS Suite with earlier product versions during the then-current term of SA coverage. Such use is subject to the CIS Suite with 2012 R2 product versions use rights in the September 2016 Product Terms.

4.7.2 License Grants After Current Term (applicable only to customers acquiring perpetual licenses)

4.7.2.1 Full Core Licenses:

For each Eligible License for Standard and Datacenter, Customer will be granted 16 perpetual core Licenses for the corresponding edition of CIS Suite with 2016 product versions (“Full Core Licenses”).

4.7.2.2 Additional Core Licenses:

If, as of the earlier of September 30, 2019 or the expiration of the SA term for the Eligible Licenses, Customer establishes and maintains a record of the physical hardware and the configuration of the Licensed Server to which its Eligible Licenses are assigned (using either the Microsoft Software Inventory Logging tool or any equivalent software), Customer is eligible for perpetual core Licenses for CIS Suite with 2016 product versions in excess of the Full Core Licenses (“Additional Core Licenses”). For purposes of this section, a “Stacked License” means an Eligible License assigned to a Licensed Server in excess of the minimum number required to run the server software on that Server.

- **Standard:** For each Eligible License for Standard assigned to a Licensed Server (including Stacked Licenses assigned for the purpose of permitting use in or management of additional Virtual OSEs), Customer will be granted an Additional Core License for each Physical Core on the Licensed Server in excess of 16.
- **Datacenter:** For Licensed Servers assigned sufficient Eligible Licenses for Datacenter (excluding Stacked Licenses), Customer will be granted an Additional Core License for each Physical Core in excess of 8 per Physical Processor and 16 per Licensed Server.

4.7.3 Full and Additional Core Licenses

Full and Additional Core Licenses are effective upon the earlier of the renewal of SA for CIS Suite or the upgrade to CIS Suite with 2016 product versions. Full and Additional Core Licenses replace customers’ Eligible Licenses. The following additional terms apply to Additional Core Licenses:

- Upon a lapse in Customer’s SA coverage, Additional Core Licenses may not be assigned to a different Server and used apart from the Full Core Licenses granted in association with the same Eligible License.

2.1 Project Professional 2016

Customers who license Project Professional 2016 are deemed to have one Project Server 2016 Device CAL for each Project Professional 2016 License. The right to access Project Server 2016 under that CAL will expire when the corresponding Project Professional 2016 License expires.

2.2 Work at Home

A Work at Home License is an optional License that can be acquired only in conjunction with a full License for Office Standard or Office Professional Plus. It permits the Primary User of the software to also install and use the software on one device outside of Customer's or its Affiliates' premises (e.g., at the user's home).

2.3 Platform Independent

Customer may run either the version licensed or a different platform version, provided that the different platform version was available when the original licensed version became available. If the components of a Product suite vary by platform version, Customer may use the components of the suite that it chooses to deploy and only those components; Customer may not mix components across platform versions. SA for a platform independent License permits Customer to use, in place of the licensed Product the most current version of either platform version of the Product that becomes available during the term of coverage.

2.4 Successor Versions

Skype for Business 2016 is the successor version to Lync 2013.

2.5 Office Online Server

Customers purchasing Office Standard 2016 or Office Professional Plus 2016 licenses before August 1, 2016 may use the editing functionality described in the Office Online section [Appendix B](#) with those licenses. This right expires on August 1, 2019.

3.1 Server Software Access

Base Access License	SQL Server 2016 CAL
----------------------------	---------------------

3.2 Automatic Updates to Previous Versions of SQL Server

If the software is installed on [Servers](#) or devices running any supported editions of SQL Server prior to SQL Server 2012 (or components of any of them) this software will automatically update and replace certain files or features within those editions with files from this software. This feature cannot be switched off. Removal of these files may cause errors in the software and the original files may not be recoverable. By installing this software on a [Server](#) or device that is running such editions you consent to these updates in all such editions and copies of SQL Server (including components of any of them) running on that [Server](#) or device.

3.3 Running Instances for Standard Edition

For each [Server](#) License, software may be run in only one [Physical OSE](#) or [Virtual OSE](#) at a time, but Customer may use any number of [Running Instances](#) of the server software in that [OSE](#).

3.4 Fail-Over Servers for Parallel Data Warehouse (PDW)

The PDW Appliance is a single unit made up of two or more compute nodes (Licensed Servers) all controlled by a single PDW control virtual machine ([Virtual OSE](#)). Technology is built in to the appliance which allows the software to fail-over to another compute node on the appliance. Customer does not need additional [Licenses](#) for the software running in fail-over [OSEs](#) as executed by the PDW Appliance technology.

4.1 SQL Server 2016 Enterprise Core - Unlimited Virtualization

Customer may run any number of instances of the server software in any number of OSEs on any Licensed Server for which it has full SA coverage on all of its core licenses for the Server.

4.2 SQL Server 2016 Enterprise Core - Parallel Data Warehouse Feature Updates

Customers with SA coverage are eligible for Parallel Data Warehouse feature releases (e.g., appliance updates) available between major product releases.

4.3 SQL Server Buy-Out Option under the Enrollment for Application Platform EAP

Customer may renew SA for SQL Server Enterprise Server/CAL Licenses, but the only buy-out option at the end of Customer’s enrollment term will be for core Licenses.

4.2 System Center Configuration Manager Current Branch Rights

Customers with active SA on System Center Standard or Datacenter [Licenses](#) may install and use the Current Branch option of System Center Configuration Manager.

4.3 System Center Global Service Monitor

Customers with active SA coverage for the [Management Licenses](#) may use System Center Global Service Monitor to monitor the web applications running on [OSEs](#) licensed with these [Management Licenses](#). Use of this Online Service is subject to the OST.

4.4 Use Rights and License Grants Associated with Change in Licensing Model

System Center 2012 R2 was the last version of System Center licensed per processor. Customers with SA on processor licenses at the launch of System Center 2016 are eligible for certain use rights and grants. For purposes of these provisions, “Eligible License” means a System Center processor [License](#) with SA obtained by Customer as of October 1, 2016 and any System Center processor [License](#) with SA subsequently obtained under the same agreement through a programmatic true-up.

4.4.1 Use Rights During Current Term

Customers with Eligible Licenses may upgrade to and use the same edition of System Center 2016 in place of earlier versions of System Center during the then-current term of SA coverage. Such use is subject to the System Center 2012 R2 use rights in the September 2016 Product Terms.

4.4.2 License Grants After Current Term (applicable only to customers acquiring perpetual licenses)

4.4.2.1 Full Core Licenses

For each Eligible License for Standard and Datacenter, Customer will be granted 16 perpetual core [Licenses](#) for the corresponding edition of System Center 2016 (“Full Core Licenses”).

4.4.2.2 Additional Core Licenses

If, as of the earlier of September 30, 2019 or the expiration of the SA term for the Eligible Licenses, Customer establishes and maintains a record of the physical hardware and the configuration of the [Licensed Server](#) to which its Eligible Licenses are assigned (using either the Microsoft Software Inventory Logging tool or any equivalent software), Customer is eligible for perpetual core [Licenses](#) for System Center 2016 in excess of the Full Core Licenses (“Additional Core Licenses”). For purposes of this section, a “Stacked License” means an Eligible License assigned to a [Licensed Server](#) in excess of the minimum number required to run the server software on that [Server](#).

- **Standard:** For each Eligible License for Standard assigned to a [Licensed Server](#) (including Stacked Licenses assigned for the purpose of permitting management of additional [Virtual OSEs](#)), Customer will be granted an Additional Core License for each [Physical Core](#) on the [Licensed Server](#) in excess of 16.
- **Datacenter:** For [Licensed Servers](#) assigned sufficient Eligible Licenses for Datacenter (excluding Stacked Licenses), Customer will be granted an Additional Core License for each [Physical Core](#) in excess of 8 per [Physical Processor](#) and 16 per [Licensed Server](#).

4.4.3 Full and Additional Core Licenses

Full and Additional Core Licenses are effective upon the earlier of the renewal of SA for System Center or the upgrade to System Center 2016. Full and Additional Core Licenses replace customers' Eligible Licenses. The following additional terms apply to Additional Core Licenses:

- Upon a lapse in Customer's SA coverage, Additional Core Licenses may not be assigned to a different [Server](#) and used apart from the Full Core Licenses granted in association with the same Eligible License.

3.1 BUILDSEVER.TXT File

Customer may install copies of the files in the BuildServer Lists found at <http://go.microsoft.com/fwlink/?LinkId=286955> onto its build machines solely for the purpose of compiling, building, verifying and archiving its programs or to run quality or performance tests on its build machines as part of the build process.

3.2 Utilities

Customer may copy and install the Utilities listed at <http://go.microsoft.com/fwlink/?LinkId=286955> that Customer receives with the software on to Customer's other third party machines solely to debug and deploy Customer's programs and databases that Customer develops with the software. Customer must delete all the Utilities installed onto a device when it finishes debugging its program or 30 days after it installs them on that device, whichever comes first. Microsoft is not responsible for any third party use of or access to Utilities Customers installs on any device.

3.3 System Center – Virtual Machine Manager (SCVMM) – Visual Studio Enterprise with MSDN, and Visual Studio Test Professional with MSDN

Each licensed user of Visual Studio Enterprise with MSDN or Visual Studio Test Professional with MSDN may install and run SCVMM with the Visual Studio software for the purpose of creating, deploying and managing lab environment(s). A lab environment is a virtual operating system environment used solely for the purpose of developing and testing Customer's programs. Customer does not need Management Licenses for that use.

3.4 Office Professional Plus 2016 – Visual Studio Enterprise with MSDN

Each [Licensed User](#) of Visual Studio Enterprise with MSDN may also install and use one copy of Office Professional Plus 2016 on one device for production use. Except as provided here, the [Desktop Applications License Model](#) in the [License Terms](#) section applies to the [Licensed User](#)'s use of this software.

3.5 GNU Lesser General Public Licensed libraries

[Licensed User](#) may reverse engineer, decompile or disassemble the Visual Studio software, or otherwise attempt to derive the source code for the Visual Studio software solely to the extent required to debug changes to any libraries licensed under the GNU Lesser General Public License that may be included with and linked to by the software.

2.1 Qualifying Operating Systems (OS)

Customers may purchase desktop operating system upgrade Licenses for Windows 10 Pro and/or Windows 10 Enterprise LTSB (“Windows 10 Enterprise”). The desktop operating system Licenses granted are upgrade Licenses only. Therefore, each device for which Customer acquires and on which it will run the Windows 10 Pro Upgrade or Windows 10 Enterprise Upgrade must be licensed to run one of the qualifying OS identified below. This requirement applies whether the upgrade License is purchased alone or together with SA.

2.1.1 Qualifying Operating Systems (OS) Chart

The qualifying OS by program type are:

⁵See 2.1.2.1 below for use restrictions

2.1.2 Use Restricted Qualifying Operating Systems (OS) Chart

If the upgrade software is installed on devices running any of the qualifying OS listed below (the "Conditional Qualifying OS's"), use restrictions apply and are detailed below the table in the Use Rights section. The use restrictions persist on devices licensed with Windows Software Assurance or Windows VDA notwithstanding any language in this document to the contrary.

²Does not apply to Academic, Charity, and OV-CW.

³Section 2.1.2.2 does not apply to Windows 10 IoT Enterprise for Retail or Thin Clients

2.1.2.1 Use restrictions for Conditional Qualifying Operating Systems

- If the upgrade software is installed on devices licensed for and previously running any supported edition of a Conditional Qualifying OS, then the following conditions apply:
 - Specific Use. Customer Licensed Device is designed for a specific use. Customer may only use the software for that use.
 - Other Software. Customer may use other programs with the software as long as the other programs directly support the manufacturer's specific use for the device, or provide system utilities, resource management, or anti-virus or similar protection. If Customer's industry system performs desktop functions, then Customer must ensure that the desktop functions: (i) are only used to support the industry functionality, and (ii) operate only when technically integrated with the Industry Program or employ technically enforced policies or architecture to operate only when used with the Industry Program functionality. "Desktop functions," as used here, include: email, word processing, spreadsheets, database, scheduling or personal finance software. "Industry Program," as used here, means a device that only employs an industry or task-specific software program. The device may use terminal services protocols to access such software running on a server. Customer's industry system cannot be usable in its deployed configuration as a general purpose PC or as a commercial viable substitute for such a system.
 - When upgrading from any version of Windows Embedded software that is designated "Point of Sale", "POS" or "Retail" in the table above, Customer must use the upgrade software with a POS application and the POS application must be the primary use of the software by each end user. A POS application is a software application which provides any of the following functions: process sales and service transactions, scan and track inventory, record or transmit customer information, perform related management functions, and provide information directly and indirectly to customers about available products and services.

2.1.2.2 Software Assurance Purchase restriction for Conditional Qualifying Operating Systems

- Notwithstanding any contrary term in Section 4.1, SA may not be purchased for devices licensed with the Conditional Qualifying Operating Systems. This restriction does not apply to devices licensed with Windows 10 IoT for Retail or Thin Clients.

2.1.3 Qualifying OS Rules for Windows VL Upgrade Licenses

- The qualifying OS must be installed on the device to which the VL Upgrade License is to be assigned.
- Apple Macintosh is only a qualifying OS if it is preinstalled by the authorized manufacturer prior to the initial sale of the device.
- Customers must remove the qualifying OS from the device in order to deploy the VL Upgrade license, unless they also have SA on the VL Upgrade license.
- Academic Select, Academic Open, CASA, and Open Value Subscription – Education Solutions customers acquiring the upgrade License using Windows XP Starter Edition, Windows Vista Starter Edition or Windows 7 Starter Edition as a qualifying OS waive any right to transfer that License outside of the country of purchase.

2.2 Windows Enterprise Upgrade (version-less) and Windows Professional Upgrade (version-less)

Version-less Licenses for Windows Enterprise Upgrade and Windows Professional Upgrade are only available in the People's Republic of China under the Select Plus, Select, and Open License programs (two points). The Licenses are edition specific, so Customer must use a version of the edition of software acquired. The Qualifying Operating Systems for the Enterprise and Pro editions of Windows 10 apply, respectively, to the version-less Licenses for Windows Enterprise Upgrade and Windows Professional Upgrade.

2.3 Re-Imaging with Windows 10

If a third party intends to re-image Windows on Customer's separately Licensed Devices, Customer must first provide that third party with written documentation proving it has licenses for the software the third party will install.

2.4 Regional Fulfillment Options

2.4.1 N (Not with Windows Media Player) Versions of Microsoft Windows XP Professional, Vista Business and 7 Professional

Customers located in one of the countries established in the European Union (EU) or the European Free Trade Association (EFTA) may be eligible to acquire media for or download the N versions of Windows XP Professional, Windows Vista Business and Windows 7 Professional. Refer the March 2014 Product List for eligibility criteria and fulfillment details <http://go.microsoft.com/?linkid=9839207>.

2.4.2 K and KN Versions of Windows XP Professional, Vista Business and 7 Professional

Customers and their affiliates have specific Korea-specific media and download options for use of Windows XP Professional, Vista Business and 7 Professional in Korea. Refer the March 2014 Product List for requirements <http://go.microsoft.com/?linkid=9839207>.

2.4.3 Windows 8/8.1 Pro KN and Windows 10 Pro KN

Customers located in Korea who have an active volume licensing agreement or enrollment with Microsoft Operations Pte Ltd are eligible to acquire the media for Windows 8/8.1 Pro KN and Windows 10 Pro KN for deployment and use in Korea. No other use is permitted.

2.4.4 Windows 8/8.1 Pro N and Windows 10 Pro N (Not with Windows Media Player)

Customers with active agreements with Microsoft Ireland Operations Ltd are eligible to acquire the media for Microsoft Windows 8/8.1 Pro N and Windows 10 Pro N only for deployment and use in countries in the European Union (EU) or the European Free Trade Association (EFTA). (For purposes of Open License, an "active agreement" is one associated with an active Open License Authorization Number.)

2.5 Windows Embedded 8 Standard Enterprise Kit

Use of the software features enabled by the Windows Embedded 8 Standard Enterprise Kit is subject to the license terms for the underlying Windows Embedded 8 Standard software. The right to use the software features expires when the right to use the underlying software expires. The Windows Embedded 8 Standard Enterprise Kit License must be permanently assigned to a single device and may not be transferred to any other device.

2.6 Installation and Use Rights

For Customers licensed under a Microsoft Cloud Agreement:

- each user assigned a User SL may activate the software on up to five concurrent devices to run an instance of the software in the [Physical OSE](#); and
- Section 4 below does not apply.

“[Software](#),” as used here, refers to Windows 10 Enterprise Current Branch or Windows Enterprise LTSB.

“[Licensed Device](#),” as used here, refers to the device to which Customer assigns active coverage.

“[Licensed User](#),” as used here, refers to the user to whom Customer assigns active coverage. If the underlying user License is transferred from one person to another, the original user of the License is no longer licensed.

- Any user of a Licensed Device, or any device used by a Licensed User, may remotely access up to four Instances of the Software Running in Virtual OSEs or one Instance of the Software Running in one Physical OSE on (a) device(s) dedicated to Customer’s use.
- Refer to sections 2.1.2.1 and 2.1.2.2 for use restrictions on Conditional Qualifying Operating System.
- Customer may create and store an Instance of the Software on one or two USB drives via Windows to Go and use them on Licensed Devices if licensed per device or on any device by users licensed per user.
- Customer may run Windows 10 Pro, or any earlier versions of the Software, in place of any Instance permitted in this section.
- Customer does not need a License to access its permitted Instances only to administer the Software.

The rights in the first column of the table apply to the licenses identified in the columns to the right, if there is a check in the cell associated with the licenses.

4.1.1 Windows 10 Enterprise Current Branch Rights

Windows 10 Enterprise Current Branch may only be used by Customers that have SA, Windows 10 Enterprise E3/E5, or VDA licenses. Customers who allow SA to lapse must uninstall Windows 10 Enterprise Current Branch. Customers that have perpetual rights to Windows Enterprise may install the version of Windows Enterprise LTSB that is current at the time of lapse.

4.2 Qualifying Operating Systems (OS)

Each device for which Customer acquires SA and on which it will run the Windows 10 Enterprise Upgrade must be licensed to run one of the qualifying OS identified by program type in the Qualifying OS table in the Product Conditions section above.

- Customers who previously bought SA for Windows Pro may renew SA on their covered devices without the need to buy a Windows Enterprise Upgrade license.
- Customers who previously purchased Windows Pro Upgrade + SA may continue to purchase Pro Upgrade + SA until the end of their enrollment or agreement.

4.3 Windows Software Assurance Per Device Reassignment

Notwithstanding the License Assignment rules stated above, Customer may reassign Windows SA per device coverage with the associated Windows Enterprise Upgrade license from the original device to a replacement device, but not on a short-term basis (i.e., not within 90 days of the last assignment), as long as (1) Customer has licensed and installed on the replacement device the latest version of a Qualifying Operating System and Customer reassigns the underlying Windows Enterprise license to the same replacement device, and (2) Customer removes any related operating system upgrades from the original device. Reassignment of Windows Enterprise Upgrade licenses may only be done in conjunction with reassignment of Active Windows Software Assurance per Device coverage. Customer may reassign Windows VDA per Device licenses to another device in accordance with the terms and conditions generally applicable to device SLs in the "License Assignment and Reassignment" in the [Universal License Terms](#).

4.4 Windows 10 Enterprise Per User License Assignment Rules

4.4.1 Windows 10 Enterprise E3/E5 User SLs

The **Licensed User** must be the **Primary User** of at least one device licensed for Windows 10 Pro or Enterprise, Windows 8.1 Pro or Enterprise, or Windows 7 Professional or Enterprise. This one device must also be the Primary User's primary work device.

4.4.2 Windows 10 Enterprise E3/E5 User Add-ons

The **Licensed User** must be the **Primary User** of a device with either active Windows Desktop Operating System SA coverage or Windows VDA coverage.

4.5 Windows 10 Enterprise E3 and E5 Add-ons

Windows 10 Enterprise Add-ons are Subscription Licenses that

- are purchased in addition to (and associated with a device licensed for) either the Windows Desktop Operating System with SA coverage ("Qualifying Coverage") or VDA ("Qualifying License"), and
- expire upon the expiration of either the Qualified Coverage or Qualifying License.

For Windows 10 Enterprise Per User Add-ons, in addition to the above,

- Customer must assign the license to the Primary User of the Licensed Device (which must also be the Primary User's primary work device), and
- use of the Windows Enterprise software is subject to the Windows Enterprise per User License Terms or the VDA per User License Terms, associated with Qualifying Coverage or Qualifying License respectively.

Despite general License reassignment rights, these Add-on licenses may be reassigned only to Primary Users of other devices with either Qualifying Coverage or Qualifying Licenses. The Windows Desktop Operating System SA Per User Add-on may be purchased in any quantity up to the total number of SA and/or VDA licensed devices.

4.6 Enterprise Enrollments with combination Windows Per User and Per Device Windows SA or VDA coverage

Customers who wish to mix Windows SA per Device and Windows SA Per User licensing may do so as long as:

- All users who use unlicensed Qualified Devices are licensed with Windows SA per User (User SL or Add-on User SL), and
- All Qualified Devices used by unlicensed users are licensed with Windows SA per Device

4.7 Purchase Eligibility for Windows 10 Enterprise Per User From SA SLs

4.7.1 Enterprise Agreements

From SA User SLs may be purchased instead of SA for fully paid, perpetual Licenses with active SA for the Qualifying Products in the table below.

Qualifying Products	Corresponding from SA User SL
SA for the Windows Desktop Operating System	Windows 10 Enterprise E3 Per User From SA (SL) ¹
	Windows 10 Enterprise E5 Per User From SA ¹

¹Available for purchase at enrollment anniversary or beginning of a new enrollment term only.

4.7.2 Enterprise Subscription Agreements

Subscription Licenses for Software Assurance for the Windows Desktop Operating System may be purchased at Customer's enrollment anniversary or the beginning of a new enrollment term with an ECS From SA User SL. The Subscription License must have been purchased at least three years prior to the purchase of the From SA User SL.

4.8 Microsoft Desktop Optimization Pack (MDOP)

Customer may install and use management functionality in the MDOP on Customer's other devices dedicated to their use to manage software on the Licensed Device or Licensed User's Devices. Customer may also use the AGPM, DaRT and UE-V to manage software on servers within its domain, so long as the desktops within that domain are licensed for MDOP use.

4.8.1 MDOP Eligibility

Customers with the following have rights to use MDOP and do not need to purchase MDOP separately.

- Windows Enterprise 10 E3/E5 per User SL;
- Windows 10 Enterprise E5 per Device SL;
- Windows 10 Enterprise VDA per User SL; or
- Agreement with an August 1, 2015, or later effective date and VDA per Device or Windows 10 Enterprise E3 per Device.

4.9 Academic Programs

The following applies to customers in all Academic Volume Licensing Programs:

4.9.1 Rights to Windows Enterprise LTSB

Academic Institutions with Windows 10 Enterprise E3/E5 or Windows 10 Education E3/E5 may install Windows 10 Enterprise LTSB in place of any permitted perpetual instance.

4.9.2 Rights to Windows 10 Enterprise, Windows 10 Education Edition, or Windows 10 Pro Education

Academic Institutions with Software Assurance for Windows Enterprise or Windows Education have rights to install and use Windows 10 Enterprise, Windows 10 Education, or Windows 10 Pro Education.

4.9.3 Downgrade Rights

Academic Institutions with Software Assurance for Windows Education have downgrade rights to Windows 8.1 Enterprise/Pro and previous versions of Windows 8.1 Enterprise/Pro, as well as, Windows Embedded 8.1 Industry and previous versions of Windows Embedded 8.1 Industry.

4.9.4 MDOP Eligibility

Academic Institutions with Software Assurance for Windows Enterprise or Windows Education have rights to install and use MDOP.

4.9.5 Windows To Go Student Option

Academic Institutions electing the Student Option are permitted a maximum of one Windows To Go Instance per licensed student device while that student is enrolled at the institution.

4.10 Windows 10 Mobile Enterprise

Customers with active Windows SA per User SL or per User Add-on may install and use Windows 10 Mobile Enterprise on secondary devices of each licensed user.

4.11 Windows Desktop Operating System – Rights to run “Clustered HPC Applications”

Customer may permit simultaneous use of the software on a [Licensed Device](#) used as a [Cycle Harvesting Node](#) to run [Clustered HPC Applications](#), as long as the [Licensed Device](#) is not used as a general purpose [Server](#), database [Server](#), web [Server](#), e-mail [Server](#), print [Server](#) or file [Server](#), for other multi-user access purposes, or for any other similar resource sharing purpose.

4.12 Windows Desktop Operating System – Windows Thin PC

Customer may use the Windows Thin PC software in place of Windows Desktop Operating System software but only to run the types of applications listed below.

- security
- management
- terminal emulation
- Remote Desktop and similar technologies
- web browser
- media player
- instant messaging client
- document viewers
- NET Framework and Java Virtual Machine

Customer may use the software on a device other than the one on which it was first installed if it moves the corresponding Software Assurance coverage to that other device.

4.13 Software Assurance for Windows Embedded Industry Enterprise

Customers with Software Assurance for Windows Embedded Industry Enterprise have the same rights and restrictions as Windows Software Assurance.

3.3 Additional Terms for Windows Server 2016 Essentials

3.3.1 Limitations on Use

- At any one time, Customer may use a [Running Instance](#) of the server software in each of the [Physical OSE](#) and in one [Virtual OSE](#).
- Customer must run the server software within a domain where the Server's Active Directory is configured as (i) the domain controller (a single server which contains all the flexible single master operations (FSMO) roles), (ii) the root of the domain forest, (iii) not to be a child domain, and (iv) to have no trust relationship with any other domains. If the server software is used in a [Virtual OSE](#), the Instance in the [Physical OSE](#) may be used only to run hardware virtualization software, provide hardware virtualization services, or run software to manage and service [Operating System Environment](#) on the [Licensed Server](#). That Instance does not need to meet the requirements in (i) through (iv) above.

3.3.2 Using the Server Software

A User Account is a unique user name with its associated password created through the Windows Server 2016 Essentials Console. Customer may use up to 25 user accounts. Each user account permits a named user to access and use the server software on that server. It may reassign a user account from one user to another provided that the reassignment does not occur within 90 days of the last assignment.

3.3.3 Windows Server 2016 Essentials Connector

Customer may install and use the Windows Server 2016 Essentials Connector software on no more than 50 devices at any one time. It may use this software only with the server software.

3.3.4 Windows Server 2016 Active Directory Rights Management Services Access

Customer must acquire a Windows Server 2016 Active Directory Rights Management Services CAL for each User Account through which a user directly or indirectly accesses the Windows Server 2016 Active Directory Rights Management Services functionality.

3.4 Windows Server Containers with Windows Server 2016 Standard and Datacenter

Customer may use any number of OSEs instantiated as [Windows Server Containers](#) on the [Licensed Server](#).

3.5 Additional Software for Windows Server 2016

Self Hosting : All editions (except Essentials)	SA Equivalent Rights: N/A	

4.1 Microsoft Azure Hybrid Use Benefit

Refer to [Section 7. Microsoft Azure Hybrid Use Benefit](#) of the Microsoft Azure Product Entry for deploying Windows Server images on Microsoft Azure.

4.2 Nano Server

Customers with active SA on Windows Server Standard or Datacenter [Licenses](#) may install and use the Nano Server deployment option.

4.3 Remote Desktop Services (“RDS”) User CAL and User SL – Extended Rights

Customer may use its RDS User CALs and User SLs with Windows Server software running in OSEs dedicated to its internal use on either Microsoft Azure Platform Services or the shared servers of a [License Mobility through Software Assurance Partner](#) for which it has completed and submitted the License Mobility Validation form. Other than administrative access by Customer’s [License Mobility through Software Assurance Partner](#), no other party may access the OSE(s). For any CAL or User SL Customer has used in this manner, it may later move to Microsoft Azure Platform Services or a new [License Mobility through Software Assurance Partner](#), but not sooner than 90 days after it initiated use in the environment it is leaving.

4.4 Use Rights and License Grants Associated with Change in Licensing Model

Windows Server 2012 R2 was the last version of Windows Server licensed under the Processor/CAL license model. Windows Server 2016 is licensed under the new Per Core/CAL model. Customers with SA on processor licenses at the launch of Windows Server 2016 are eligible for certain use rights and grants. For purposes of these provisions, “Eligible License” means a Windows Server processor [License](#) with SA obtained by Customer as of October 1, 2016 and any Windows Server processor [License](#) with SA subsequently obtained under the same agreement through a programmatic true-up.

4.4.1 Use Rights During Current Term

Customers with Eligible Licenses may upgrade to and use the same edition of Windows Server 2016 in place of earlier versions of Windows Server during the then-current term of SA coverage. Such use is subject to the Windows Server 2012 R2 use rights in the September 2016 Product Terms.

4.4.2 License Grants After Current Term (applicable only to customers acquiring perpetual licenses)

4.4.2.1 Full Core Licenses

For each Eligible License for Standard and Datacenter, Customer will be granted 16 perpetual core [Licenses](#) for the corresponding edition of Windows Server 2016 (“Full Core Licenses”).

4.4.2.2 Additional Core Licenses

If, as of the earlier of September 30, 2019 or the expiration of the SA term for the Eligible Licenses, Customer establishes and maintains a record of the physical hardware and the configuration of the [Licensed Server](#) to which its Eligible Licenses are assigned (using either the Microsoft Software Inventory Logging tool or any equivalent software), Customer is eligible for perpetual core [Licenses](#) for Windows

Server 2016 in excess of the Full Core Licenses (“Additional Core Licenses”). For purposes of this section, a “Stacked License” means an Eligible License assigned to a [Licensed Server](#) in excess of the minimum number required to run the server software on that Server.

- **Standard:** For each Eligible License for Standard assigned to a [Licensed Server](#) (including Stacked Licenses assigned for the purpose of permitting use in additional Virtual OSEs), Customer will be granted an Additional Core License for each [Physical Core](#) on the [Licensed Server](#) in excess of 16.
- **Datacenter:** For Licensed Servers assigned sufficient Eligible Licenses for Datacenter (excluding Stacked Licenses), Customer will be granted an Additional Core License for each [Physical Core](#) in excess of 8 per [Physical Processor](#) and 16 per [Licensed Server](#).

4.4.3 Full and Additional Core Licenses

Full and Additional Core Licenses are effective upon the earlier of the renewal of SA for Windows Server or the upgrade to Windows Server 2016. Full and Additional Core Licenses replace customers’ Eligible Licenses. The following additional terms apply to Additional Core Licenses:

- Upon a lapse in Customer’s SA coverage, Additional Core Licenses may not be assigned to a different [Server](#) and used apart from the Full Core Licenses granted in association with the same Eligible License.

Online Services

Customer's purchase and use of Microsoft Online Services are governed by the Product Terms and the Microsoft Online Services Terms (OST) located at <http://go.microsoft.com/?linkid=9840733> and incorporated herein by reference.

Online Services Regional Availability

Visit <http://www.microsoft.com/online/faq.aspx#international> for a list of countries and regions in which the Online Services are available.

Online Services Purchasing Rules

The following purchasing rules apply to purchasing Online Services:

- Subscription terms vary by purchasing program. Under the Enterprise Agreement program, the subscription terms for Online Services other than Microsoft Azure must be coterminous, ending on the date of Customer's Enrollment end date.
- If Customer makes additional purchases of an Online Service, the end of the subscription term of the additional purchase must align with Customer's existing subscription term for the same Online Service.
- Customer may not reduce the number of users or devices covered by its Online Services subscription during the term of their Online Services subscription except as permitted in Customer's volume licensing agreement.
- Terms for Microsoft Azure are provide in the Microsoft Azure Product Entry.
- Add-on and Step-up User SLs must be purchased under the same volume licensing agreement and enrollment (if any) as their Qualifying License or base User SL. Add-ons expire upon the earlier of the expiration of the SA coverage for the Qualifying License or the Add-on User SL. Step-ups expire upon the earlier of the expiration of the Step-up User SL or base User SL.

Online Services Renewal

Online Services with Auto-Renewal will automatically renew the day after their subscription term expires, unless Customer chooses not to renew by opting out of auto-renewal at least of 30 days before the subscription expires by placing an order with their reseller or using a form that is available at <http://microsoft.com/licensing/contracts>. Online services subscriptions for government and academic customers will not be automatically renewed unless Customer chooses the auto-renewal option.

Microsoft Azure Services

1. Definitions

Allocated Annual Commitment means the portion of the Monetary Commitment allocated annually through the Enrollment term.

Consumption Allowance is equal to fifty percent of the Allocated Annual Commitment. For example, for an Allocated Annual Commitment of \$100,000, the Consumption Allowance for that year would be \$50,000.

Consumption Rates means the prices for Microsoft Azure Services or, for certain Microsoft Azure Service Plans, any usage in excess of a specified quantity. Consumption Rates may also be referred to as "Overage Rates" or "Overage" in other Microsoft or Microsoft Azure documents.

Microsoft Azure Services Plan means a subscription to one of the individual Microsoft Azure Services identified below as a Microsoft Azure Services Plan. Services purchased as a Microsoft Azure Services Plan are not eligible for the Hosting Exception in the Online Services Terms.

Monetary Commitment means the total monetary amount a customer commits to pay over the term of the subscription for its use of eligible Microsoft Azure Services.

2. Subscription Term

Customers may only subscribe to Microsoft Azure Services (including Microsoft Azure Services Plans) for a subscription term that ends on the end date of Customer's Enrollment ("coterminous"). Customers must have at least two months remaining in their Enrollment term in order to subscribe to Microsoft Azure Services.

3. Purchasing Services

Microsoft Azure Services may be purchased in one or a combination of the following ways:

- Commitment:** Monetary Commitments are allocated proportionally through the Enrollment term. Customers may increase their Monetary Commitment at any time by placing additional orders. When an additional order is placed, Allocated Annual Commitment will be increased for that year by the amount of the order. For each subsequent year remaining in the Enrollment term, Allocated Annual Commitments will be increased by the amount of the additional order, multiplied by twelve, divided by the number of full months between when the additional order was placed and the anniversary date following the additional order.
 - Customers may reduce their Monetary Commitment for any future Enrollment anniversary by notifying their reseller, who must process the reduction with Microsoft prior to the Enrollment anniversary date.
 - Customers must consume their Allocated Annual Commitment by the last day of the month preceding the Enrollment anniversary each year, after which any unused portion of the Allocated Annual Commitment will be forfeited. Customers may utilize their annual

Consumption Allowance by the last day of the month preceding the Enrollment anniversary each year, after which any unused portion of that Consumption Allowance will be forfeited.

- B. **Consumption:** Customers pay based on the amount of Microsoft Azure Services consumed during a billing period. Certain features of the Microsoft Azure Services may only be available for purchase on a consumption basis.
- C. **Microsoft Azure Services Plan:** Customers may be able to subscribe to a Microsoft Azure Service as a Microsoft Azure Services Plan.
- D. **Automatic Provisioning:** As part of the Server and Cloud Enrollment, Customers who have not ordered Microsoft Azure Services as part of their Enrollment may receive an activation email from Microsoft inviting them to provision Microsoft Azure Services under their Enrollment without a Monetary Commitment.

4. Pricing

If Customer does not have an Enterprise Enrollment, Enterprise Subscription Enrollment, Select Agreement, Select Plus Agreement or Server Cloud Enrollment, price level A will apply.

Microsoft may offer lower prices to Customer or Customer's reseller for individual Microsoft Azure Services during a Customer's Enrollment term on a permanent or temporary (promotional) basis.

5. Payment and Fees

Customers who have provisioned Microsoft Azure Services without a Monetary Commitment will be invoiced quarterly at Consumption Rates.

For Customers with a Monetary Commitment the first Allocated Annual Commitment will be invoiced immediately and future Allocated Annual Commitments will be invoiced on the anniversary of the Enrollment effective date. Alternatively, Customers may choose to pay their entire Monetary Commitment upon placing the initial order.

Each month, Microsoft will deduct from the Allocated Annual Commitment the monetary value of Customer's usage of eligible Microsoft Azure Services. Once Customer's Allocated Annual Commitment balance has been exhausted, any additional usage will be invoiced at Consumption Rates.

If a direct Enterprise Agreement Customer's usage is lower than the Allocated Annual Commitment plus the Consumption Allowance, any usage exceeding the Allocated Annual Commitment will be invoiced at the Consumption Rates to the Customer or its reseller on the anniversary of the Enrollment effective date for Years 1 and 2 and at the end of the subscription term for Year 3.

If a direct Enterprise Agreement Customer's usage is higher than the Allocated Annual Commitment plus the Consumption Allowance, all usage exceeding the Allocated Annual Commitment will be invoiced at Consumption Rates to the Customer or its reseller at the end of each Enrollment quarter.

For indirect Enterprise Agreement Customers, all usage exceeding the Allocated Annual Commitment will be invoiced at Consumption Rates to the Customer's reseller at the end of each Enrollment quarter.

All usage of the Microsoft Azure Services after the expiration or termination of Customer's subscription term will be invoiced to the customer or its reseller at then-current Consumption Rates on a quarterly basis.

The purchase of a Microsoft Azure Services Plan will be invoiced to Customer or its reseller according to the terms of Customer's volume licensing agreement governing payment terms for the order of Online Services generally. Monetary Commitment cannot be applied to the purchase of a Microsoft Azure Plan; provided, however, that if a Microsoft Azure Services Plan includes the purchase of an initial quantity of a service ("Initial Quantity"), Customer usage that exceeds the Initial Quantity will be billed at Consumption Rates, and Customer's Allocated Annual Commitment can be applied to such usage.

6. Open License, Open Value and Open Value Subscription Programs

6.1 Definitions

Consumption Rates mean for purposes of the Open License, Open Value and Open Value Subscription agreements, prices for all Microsoft Azure Services.

Portal means the online portal through which Customer administers its Subscription.

Subscription means a subscription with a value set at time of order that can be redeemed for a quantity of Microsoft Azure Services.

6.2 Subscription Term

The Subscription period starts at the time of product key redemption and not the time of order. Once the product key is redeemed, Microsoft will not accept return requests submitted by Microsoft's partners. Subscriptions are valid for the earlier of 12 months or until the value is consumed. Subscriptions may not be combined. Customer may have multiple active Subscriptions. New Subscriptions can be purchased at any time.

7. Microsoft Azure Hybrid Use Benefit

Under the Microsoft Azure Hybrid Use Benefit ("HUB"), a customer with Windows Server Licenses covered with SA may upload to and use its own Windows Server image on Microsoft Azure.

Azure HUB enables Customers’ use of Windows Server on Microsoft Azure through Azure Virtual Machines (“Base Instances”). HUB does not include the cost of Base Instances, and Base instances do not include Windows Server. Each Windows Server processor [License](#) with SA, and each set of 16 Windows Server core [Licenses](#) with SA, entitles Customer to use Windows Server on Microsoft Azure on up to 16 [Virtual Cores](#) allocated across two or fewer Azure Base Instances. Each additional set of 8 core [Licenses](#) with SA entitles use on up to 8 [Virtual Cores](#) and one Base Instance.

Customer must indicate that it is using Windows Server under the HUB when configuring the uploaded image(s) on Azure. Customer may use its uploaded image(s) subject to the [Online Services Terms](#).

The HUB provides additive rights to deploy and use the software when exercised in connection with Datacenter [Licenses](#) and alternative rights when exercised in connection with Standard [Licenses](#). Standard [Licenses](#) are deemed “assigned to Azure” when Customer uses Windows Server under the HUB, and are subject to the [License](#) reassignment limitations in the [Universal License Terms](#).

²Requires a minimum of four Qualifying Licenses

2.1.2 Add-on SLs purchased under a different volume license agreement than the Qualifying License

An Operations Management Suite Add-on SL may be purchased under a different volume licensing agreement than its Qualifying License. If the SA coverage for the Qualifying License expires before the Operations Management Suite Add-on SL, the Operations Management Suite Add-on SL will expire at its next enrollment anniversary.

2.1.3 Software Included with Operations Management Suite E2

During the term of each Operations Management Suite E2 subscription, Customer may install and run one copy of the corresponding included software for Managing an OSE in Customer’s own facility or in Microsoft Azure.

Operations Management Suite Subscription	Included Software
Operations Management Suite E1 Operations Management Suite E1 From SA	System Center Server Standard
Operations Management Suite E2 Operations Management Suite E2 from SA	System Center Server Standard
Operations Management Suite: Insights and Analytics	System Center Operation Manager
Operations Management Suite: Automation and Control	System Center Configuration Manager System Center Orchestrator

Enterprise CAL Suite Bridge for Office 365 and Microsoft Intune	

2.3 Add-on User SL Purchase Restrictions

Only one Add-on User SL may be purchased for each Qualifying License (or set of Qualifying Licenses).

Customers may acquire Add-on User SLs for users or users of devices added to an Enterprise Enrollment user or device count between true-up dates (i.e., in advance of the acquisition of the qualifying licenses), subject to the same limitation of one Add-on User SL per Qualifying License (or set of Qualifying Licenses).

Campus and School Agreement customers may purchase the corresponding User Subscription License for Enterprise Mobility + Security User SLs for their Users up to the same quantity as their Eligible PC count so long as they have coverage for the Qualifying Licenses.

2.4 Purchase eligibility for Enterprise Mobility + Security From SA User SLs

From SA User SLs may be purchased in lieu of SA for fully paid, perpetual Licenses (“Qualifying Licenses”) for the Products in the table below. From SA User SL may also be purchased instead of Subscription Licenses for the Products below if the Subscription License was purchased at least three years prior to the purchase of the From SA User SL. From SA User SLs requires CAL Suite Bridges as noted in the table.

Qualifying Licenses	Corresponding from SA User SL	Required CAL Suite Bridge
Core CAL Suite	Enterprise Mobility + Security from SA ¹	Core CAL Bridge for Enterprise Mobility + Security ^{2,3}
Enterprise CAL Suite	Enterprise Mobility + Security from SA ¹	Enterprise CAL Bridge for Enterprise Mobility + Security ^{2,4}

¹Available for purchase at enrollment anniversary or beginning of a new enrollment term only.

²Required for Purchase at enrollment anniversary only.

³Purchase not required for users also licensed with Office 365 (Enterprise & Government E1, E3, E5)

⁴Purchase not required for users also licensed with Office 365 (Enterprise & Government E3, E5)

2.5 From SA User SLs purchases

No more than one From SA User SL may be purchased for each per device Qualifying License in section 2.4. As a one-time exception for devices assigned a Qualifying License that are used by more than one user, Customer may purchase a From SA User SL for each of those users, but only if it purchases a From SA User SL for all users of all Qualified Devices.

2.6 SA Benefits for Enterprise Mobility + Security From SA User SLs

Enterprise Mobility + Security From SA User SLs qualify Customer for SA Benefits based on the Qualifying Licenses in section 2.4.

2.1 Extended Use Rights for Secure Productive Enterprise Customers

2.1.1 Office Servers

Each Licensed User assigned a Secure Productive Enterprise User SL may install any number of copies of the following server software on any Server dedicated to Customer’s use:

- Exchange Server;
- SharePoint Server; and
- Skype for Business Server.

Access to the above server software is exclusive to those users assigned a Secure Productive Enterprise User SL. This provision does not apply to customers who license Secure Productive Enterprise under the Microsoft Cloud Agreement.

2.1.2 Office Professional Plus

2.1.2.1 Secure Productive Enterprise From SA User SLs:

For each Licensed User to whom customer assigns a Secure Productive Enterprise From SA User SL, Customer may install:

- one local copy of Office Professional Plus for the sole use of the Licensed User for the duration of the subscription; and

- one local copy of Office Professional Plus for new User SLs added to the same volume license agreement for the sole use of the Licensed User for the duration of the subscription. The number of new User SLs granted those user rights may not exceed the number of From SA User SLs initially covered under the agreement.

This provision does not apply to customers who license this Product under the Microsoft Cloud Agreement.

2.1.2.1 Secure Productive Enterprise User SLs acquired in MPSA

For each Licensed User with a device covered with Software Assurance for Office Professional Plus to whom Customer assigns a Secure Productive Enterprise User SL, Customer may install one local copy of Office Professional Plus for the sole use of the Licensed User for the duration of the subscription.

2.2 Add-on User SLs and From SA User SLs

To acquire a Secure Productive Enterprise Add-On User SL or a Secure Productive Enterprise From SA User SL customer must satisfy the eligibility and License assignment requirements for each component of Secure Productive Enterprise. The components are: Windows 10 Enterprise E3/E5 Per User, Enterprise Mobility + Security E3/E5, and Office 365 Enterprise E3/E5. Refer to Secure Productive Enterprise Add-on User SLs and Secure Productive Enterprise From SA User SLs sub-sections in the Additional Information sections for the components of Secure Productive Enterprise for information.

2.3 From SA User SLs Purchases

Customer may not purchase more From SA User SLs than the number of Qualified Devices. As a one-time exception Customer may purchase a greater number of From SA User SLs, but only if (1) Customer purchases From SA User SL for each of the users of its Qualified Device, and (2) Customer must add devices as necessary to comply with the Primary use requirements in the Windows Desktop Operating System section 4.4.1.

2.4 SA Benefits for Secure Productive Enterprise From SA User SLs

Secure Productive Enterprise From SA User SLs provide the same SA Benefits as the From SA components of the Secure Productive Enterprise From SA User SL (Office 365 Enterprise E3/E5 From SA, Enterprise Mobility + Security From SA, and Windows 10 Enterprise E3/E5 Per User From SA).

2.5 United States Government Community Cloud Service

Refer to the Program Availability table for each component of Secure Productive Enterprise to find which components are UC services.

²Required for Purchase at enrollment anniversary only.

³Purchase not required for users also licensed with Enterprise Mobility + Security.

At their next Enrollment renewal, customers who have licensed Office 365 suite subscriptions prior to August 1, 2014 under a current Enrollment may purchase corresponding From SA User SLs to license all respective Office 365 users including those users added during the remainder of their current Enrollment term.

2.9 From SA User SLs purchases

No more than one From SA User SL may be purchased for each per device Qualifying License in section 2.8. As a one-time exception for devices assigned Qualifying Licenses that are used by more than one user, Customer may purchase a From SA User SL for each of those users, but only if it purchases a From SA User SL for all users of all licensed Qualified Device.

2.10 SA Benefits for Office 365 From SA User SLs

Office 365 (Enterprise E1, E3, E5 and Government E1, E3, E4) From SA User SLs provide the same SA Benefits as the Qualifying Products in section 2.8 above.

2.11 Office 365 Enterprise K1

Office 365 Enterprise K1 is formerly known as Business Productivity Online Deskless Suite (BPOS Deskless). Customers in Brazil and Chile purchasing Office 365 Enterprise K1 will be provisioned on BPOS Deskless. These customers may migrate to Office 365 Enterprise K1.

2.12 Office Multi Language Pack

Customers with Office 365 Suite that include Office 365 ProPlus may use the latest version of the Office Multi Language Pack with copies of desktop applications software they are permitted to use under their qualifying Office 365 Suite.

2.13 E-Learning

Customer may access hosted E-Learning courses if it has one or more Licenses for Office 365 ProPlus (SCORM-compliant content is not eligible). Only Customer's users with active Office 365 ProPlus licenses may access hosted online E-Learning courses relevant to Office 365 ProPlus services by logging in to the Online Training site with their Office 365 ProPlus credentials. Customer's use of hosted E-Learning courses is subject to the E-Learning website terms of use.

Glossary

Attributes

Attributes are identified in the tables in each Product Entry, and indicate rights or conditions applicable to the Products.

Additional Software: Software identified in the Use Rights for Server Products that Customer is permitted to use on any device in conjunction with its use of server software.

Client Access Requirement: Indicates whether or not a Server Product requires CALs for access by users and devices.

Disaster Recovery: Rights available to SA customers to use software for conditional disaster recovery purposes; refer to [Servers – Disaster Recovery Rights](#) section of [Appendix B – Software Assurance](#) for details.

Down Editions: Permitted lower editions corresponding to specified higher editions. Customer may use the permitted lower edition in place of a licensed higher-level edition, as permitted in the Universal License Terms.

Extended Term Eligible: Online services that are eligible for an extended term as described in the Enterprise and Enterprise Subscription licensing agreement.

External User Access Requirement: Indicates specific license requirements or options for access by [External Users](#).

Fail-Over Rights: An SA benefit that allows Customer to run passive fail-over Instances of the Product in conjunction with software running on the [Licensed Server](#), in anticipation of a fail-over event. Passive fail-over Instances may be run in either a separate [OSE](#) on the [Licensed Server](#) or on a different [Server](#) dedicated to Customer's use. Fail-Over Rights apply only if the number of licenses that otherwise would be required to run the passive fail-over Instances does not exceed the number of licenses required to run the corresponding production Instances.

Government Community Cloud (U.S. only): Online Services that are available exclusively to qualifying United States federal, state, local, or tribal government entities. Use Rights for government community cloud services are equivalent to those of their standard multi-tenant equivalents unless otherwise noted. Online services offered as government community cloud services are not eligible for License reservation. Qualifying Online Services are offered as government community cloud services and non-government community cloud services. Customers may be provisioned as one or the other but not a mix of both. Online Services designated as government community cloud may not be deployed in the same domain with specific non-government community cloud services.

Included Technologies: Indicates other Microsoft components included in a Product; refer to the Included Technologies section of Universal License Terms for details.

License Mobility: Rights available to SA customers either to reassign licenses outside the standard timelines or to use Products on multi-tenant servers outside their own datacenters; refer to License Mobility section of [Appendix B – Software Assurance](#) for details.

License Terms: Terms and conditions governing deployment and use of a Product.

Migration Rights: Customer may be able to upgrade from prior versions of the software or other Products under special terms published in the Product Entry or Product List as indicated. Customer may also have non-standard downgrade rights to use prior versions of the same or other Products in place of the licensed version.

Prerequisite: Indicates that certain additional conditions must be met in order to purchase Licenses for the Product.

Prerequisite (SA): Indicates that certain additional conditions must be met in order to purchase SA coverage for the Product.

Prior Version: Earlier versions of Product and their Date Available.

Notices: Identifies the notices applicable for a Product; refer to the Notices section of the [Universal License Terms](#) for details.

Online Subscription Program (OSP): The Product is available in an Online Subscription program.

Product Pool: Indicates the grouping of Products that the Product belongs to for the purposes of determining pricing discounts. There are three Product pool categories; Application, Server and System.

Product-Specific License Terms: Indicates that Product-Specific terms and conditions governing deployment and use of the Product are included below the Use Rights table.

Promotions: Indicates that limited time offers apply to the Product as described in [Appendix E – Promotions](#).

Qualified User Exemption: Exemption applicable to users who access Products solely under one of these licenses. These users are exempt from being counted as a Qualified User under Customer's volume licensing agreement, notwithstanding anything to the contrary in that agreement.

Reduction Eligible: An Online Service for a customer that has an Enterprise Enrollment, Enterprise Subscription Enrollment, Microsoft Azure Enrollment or Enrollment for Education Solutions can report a reduction in licenses or Allocated Annual Commitment.

Reduction Eligible (SCE): Products for which a Server & Cloud Enrollment customer can report a reduction in subscription licenses or future Allocated Annual Commitment after 12 continuous months.

Roaming Rights: An SA benefit that permits the [Primary User](#) of a [Licensed Device](#) certain access and use rights. The [Primary User](#) may use a [Qualifying Third Party Device](#) to (i) remotely access and use permitted Instances or copies of the software running on [Servers](#) dedicated to Customer's use, (ii) locally use a permitted Instance or copy in a [Virtual OSE](#), or (iii) locally access a permitted Instance or copy of the software on a USB drive via Windows to Go, in each case solely for work-related purposes while the user is not on Customer's premises. No other user may use the software under the same [License](#) at the same time. Despite anything to the contrary in Customer's volume licensing agreement, Qualified Desktops and Devices do not include any Qualifying Third Party Devices from which Customer's users access and use the software and any (other) enterprise product solely under Roaming Rights.

SA Equivalent Rights: Software SLs acquired under a Server and Cloud Enrollment or Microsoft Products and Services Agreement provide the same SA rights and benefits during the term of the Subscription as Licenses with SA coverage.

Self Hosting: An SA benefit that permits use of Products for conditional hosting purposes; refer to the Servers – Self Hosted Applications section of [Appendix B – Software Assurance](#) for details.

SA Benefits Pool: Indicates the category of the Product for purposes of determining SA Benefits broadly applicable to that Product Pool, as listed in [Appendix B – Software Assurance](#).

Student Use Benefit: The option for Institutions that license a qualifying Product for their Organization-wide Count to license a Product for use by their Students at no additional cost. The qualifying Product and the Product eligible for the Student Use Benefit are identified in the Product Entry. Such Student Licenses may not be counted toward minimum order requirements.

Suite: A Product that is comprised of components that are also licensed separately. A suite is licensed under a single License that is assigned to a single user or device, and allows use of all of its components on the single device or by a single user to which it is assigned. The components of the Suite may not be separated and used on separate devices or by separate users.

True-Up Eligible: An Online Service subscription License that an Enterprise or Enterprise Subscription customer can order via the true-up or annual order process rather than monthly.

UTD Discount: An Up to Date Discount is a discount available to Open Value Subscription customers ordering licenses for Product during the first year of their agreement if they have a License for the corresponding qualifying Product.

[Table of Contents](#) / [Glossary](#) / [Index](#)

Cell Values

Cell Values are used in the Program Availability table in each of each Product Entry to identify how the Product is offered in each program. The volume licensing program agreements define these offering types.

A= Additional Product: The Product is offered as an Additional Product.

AO= Additional Product Organization Wide: The Product is offered as an Additional Product orderable organization-wide.

E = Enterprise Product: The Product is offered as an Enterprise Product, but not a desktop.

ED = Education Desktop: The Product is offered as an education desktop platform product with either Enterprise CAL Suite or Core CAL Suite under Enrollment for Education Solutions and Open Value Subscription – Education Solutions.

EO = Enterprise Online Service: The Online Service is offered as an enterprise Online Service or platform Online Service and satisfies the Enterprise Product requirements. EO for Core CAL and Enterprise CAL Suite require the corresponding CAL Suite Bridge.

OM = Open Minimum: Each License counts solely as 5 Licenses for purposes of the initial order minimum.

OW = Organization-wide: Available under the Organization-wide option.

P = Non-Organization Wide in Open Value: The Product is offered on a non-Organization Wide basis in Open Value.

SD= School Desktop Platform Product: The Product is offered as a school desktop platform product with either Enterprise CAL Suite or Core CAL Suite under Campus and School Agreement. An SD is counted as three units.

ST = Student Offering: The Product is offered as a Student Offering and must be ordered for the full Student Count.

SP = Server and Tools Product: The Product is a server and tools product offered under the Server and Cloud Enrollment.

UC = United States Government Community Cloud Service: The Online Service is offered as a United States Government Community Cloud Service.

[Table of Contents](#) / [Glossary](#) / [Index](#)

Column Headings

Column Headings appear in the Program Availability table for each Product Entry and organize program availability information by program, offering type, points and availability dates.

DA= Date Available: The date a Product is first available, designated as month/year. For software, it is the earlier of the date Microsoft makes licenses available for ordering or available for download from the Volume Licensing Services Center (VLSC).

EA/EAS = Enterprise Agreement and Enterprise Subscription Agreement: Includes Enterprise and Enterprise Subscription Enrollments, including the Server Cloud Enrollment.

EES = Enrollment for Education Solutions: Includes Enrollment for Education Solutions and the School Enrollment under the Campus and School Agreement (CASA).

L = License: Point value designated for the software License indicated. If point value is parenthesis, that is the value for CASA.

L/SA = License and SA: Point value designated when License and SA is offered for purchase at the same time.

MPSA = Microsoft Products and Services Agreement.

OL = Open License: Open License includes Open License, Open License for Academic, Open License for Government, and Open License for Charity, where available.

OV/OVS= Open Value and Open Value Subscription: Includes Open Value, Open Value Subscription, Open Value for Government, and Open Value Subscription for Government.

OVS-ES= Open Value Subscription – Education Solutions.

Point = The value assigned to a Product used to calculate the volume pricing level applicable to Customer’s volume licensing agreement.

SA = Software Assurance: Point value designated when SA is offered for the software indicated.

S/S+ = Select and Select Plus: This also includes Select for Academic, Select Plus for Academic, Select for Government, and Select Plus for Government.

[Table of Contents](#) / [Glossary](#) / [Index](#)

Definitions

Academic Program means Academic Purchasing Account on MPSA, Academic Select License, Select Plus for Academic, Campus and School Agreement, or Open Value Subscription – Education Solutions.

Add-on means a license that is purchased in addition to (and associated with) a previously acquired Qualifying License (or set of Qualifying Licenses) and is assigned to a single Qualified User (as defined in Customer’s Enrollment). For any Add-on User SL not appearing individually in OST, the license terms applicable to a full User SL for the same service apply.

Additive CAL means a [CAL](#) that must be used on conjunction with a base [CAL](#).

Additive External Connector License means an [External Connector License](#) that must be used in conjunction with a base [External Connector License](#).

CAL means client access license, which may be assigned by user or device, as appropriate. A user CAL allows access to corresponding version of the server software or earlier versions of the server software from any device by one user. A device CAL allows access to corresponding versions of the server software or earlier versions of the server software from one device by any user. CALs allow access to server software running on Customer’s Licensed Servers only.

CAL Equivalent License means a User [SL](#) or [External Connector License](#) identified in a Product’s “Server Software Access” table, or a [CAL](#) suite or [SL](#), as identified in the CAL Equivalent Licenses Table, [Appendix A](#), as applicable. A CAL suite is a CAL Equivalent License only if Customer purchased the [License](#) after the Server Product’s Date Available or if Customer had active SA coverage as of the Date Available.

Client OSE means an [OSE](#) running a client operating system.

Clustered HPC Application means a high performance computing applications that solves, in parallel, complex computational problems, or a set of closely related computational problems. Clustered HPC Applications divide a computationally complex problem into a set of jobs and tasks which are coordinated by a job scheduler, such as provided by Microsoft HPC Pack, or similar HPC middleware, which distributes these in parallel across one or more computers operating within an HPC cluster.

Cluster Node means a device that is dedicated to running [Clustered HPC Applications](#) or providing job scheduling services for [Clustered HPC Applications](#).

Core Factor means a numerical value associated with a specific [Physical Processor](#) for purposes of determining the number of Licenses required to license all of the [Physical Cores](#) on a [Server](#).

Cycle Harvesting Node means a device that is not dedicated to running [Clustered HPC Applications](#) or job scheduling services for [Clustered HPC Applications](#).

External Connector License means a License assigned to a [Server](#) dedicated to Customer’s use that permits access to the corresponding version of the server software or earlier versions of the server software by [External Users](#).

External Users means users that are not either Customer’s or its Affiliates’ employees, or its or its affiliates’ onsite contractors or onsite agents.

Hardware Thread means either a [Physical Core](#) or a hyper-thread in a [Physical Processor](#).

High Performance Computing (HPC) Workload means a workload where the server software is used to run a [Cluster Node](#) and is used in conjunction with other software as necessary to permit security, storage, performance enhancement and systems management on a [Cluster Node](#) for the purpose of supporting the [Clustered HPC Applications](#).

Hyper-V Container is a feature of Windows Server that utilizes a virtual operating system environment. Each Hyper-V Container is considered to be one [Virtual OSE](#).

Instance means an image of software that is created by executing the software’s setup or install procedure or by duplicating an existing [Instance](#).

License means the right to download, install, access and use a Product.

Licensed Device means a single physical hardware system to which a License is assigned. For purposes of this definition, a hardware partition or blade is considered to be a separate device.

License Mobility through Software Assurance Partner means an entity identified at <http://www.microsoft.com/licensing/software-assurance/license-mobility.aspx> and authorized by Microsoft to host customers’ software on shared servers.

Licensed Server means a single [Server](#), dedicated to Customer’s use, to which a [License](#) is assigned. For purposes of this definition, a hardware partition or blade is considered to be a separate Server.

Licensed User means the single person to whom a [License](#) is assigned.

Management License (ML) means a License that permits management of one or more [OSEs](#) by the corresponding version of the server software or any earlier version of the server software. There are two categories of Management Licenses: Server Management License and Client Management License. There are three types of Client Management Licenses: User, OSE and device. A User Management License permits management of any [OSE](#) accessed by one user; an OSE Management License permits management of one [OSE](#) accessed by any user; a device Management License (Core CAL or Enterprise CAL Suite) permits management of any [OSE](#) on one device.

Management License Equivalent License means a User SL identified in a Product's "Management License" table, or a [CAL](#) suite or [SL](#), as identified in the Management License Equivalent Licenses Table, [Appendix A](#), as applicable. A [CAL](#) suite is a Management License Equivalent License only if Customer purchased the license after the Server Products' Date Available or if Customer had active SA coverage as the Date Available.

Managing an OSE means to solicit or receive data about, configure, or give instructions to the hardware or software that is directly or indirectly associated with the [OSE](#). It does not include discovering the presence of a device or [OSE](#).

Operating System Environment (OSE) means all or part of an operating system Instance, or all or part of a virtual (or otherwise emulated) operating system Instance which enables separate machine identity (primary computer name or similar unique identifier) or separate administrative rights, and instances of applications, if any, configured to run on the operating system Instance or parts identified above. A physical hardware system can have one [Physical OSE](#) and/or one or more [Virtual OSEs](#).

Physical Core means a core in a [Physical Processor](#).

Physical OSE means an [OSE](#) that is configured to run directly on a physical hardware system. The operating system Instance used to run hardware virtualization software or to provide hardware virtualization services is considered part of the [Physical OSE](#).

Physical Processor means a processor in a physical hardware system.

Primary User means the user who uses a [Licensed Device](#) more than 50% of the time in any 90 day period.

Production Environment means any Physical or Virtual OSE running a production workload or accessing production data, or [Physical OSE](#) hosting one or more [Virtual OSEs](#) running production workloads or accessing production data.

Qualifying Third Party Device means a device that is not controlled, directly or indirectly, by Customer or its Affiliates (e.g., a third party's public kiosk).

Running Instance means an [Instance](#) of software that is loaded into memory and for which one or more instructions have been executed. (Customer "Runs an Instance" of software by loading it into memory and executing one or more of its instructions.) Once running, an Instance is considered to be running (whether or not its instructions continue to execute) until it is removed from memory.

SL means subscription [License](#) that allows access to software or a hosted service for a defined period of time.

Server means a physical hardware system capable of running server software.

Server Farm means a single data center or two data centers each physically located either in time zones not more than four hours apart, or within the EU or EFTA. A data center can be moved from one Server Farm to another, but not on a short-term basis. (EU is European Union; EFTA is European Free Trade Association).

Step-up means a license purchased in addition to (and associated with) a previously acquired base license. For any Step-up User SL not appearing individually in the OST, the license terms applicable to the equivalent full User SL apply.

Virtual Core means the unit of processing power in a virtual hardware system. A Virtual Core is the virtual representation of one or more hardware threads.

Virtual OSE means an [OSE](#) that is configured to run on a virtual hardware system.

Web Workload (also referred to as "[Internet Web Solutions](#)") are publicly available web pages, websites, web applications, web services, and/or POP3 mail serving. For clarity, access to content, information, and applications served by the software within an Internet Web Solution is not limited to Customer's or its affiliates' employees.

Software in Internet Web Solutions is used to run:

- web server software (for example, Microsoft Internet Information Services), and management or security agents (for example, the System Center Operations Manager agent);
- database engine software (for example, Microsoft SQL Server) solely to support Internet Web Solutions; or
- the Domain Name System (DNS) service to provide resolution of Internet names to IP addresses as long as that is not the sole function of that instance of the software.

Windows Server Container is a feature of Windows Server software.

Windows Software Components means components of Windows software included in a Product. Microsoft .NET Framework, Microsoft Data Access Components, PowerShell software and certain .dlls related to Microsoft Build, Windows Identity Foundation, Windows Library for JavaScript, Debghelp.dll, and Web Deploy technologies are all Windows Software Components.

Appendix A – CAL/ML Equivalent Licenses

Rights to access server software running on Customer’s [Licensed Servers](#) or to [Manage OSEs](#) are available under [CAL](#) suites and Online Services [SLs](#). If a cell is shaded blue in a server’s row, the [CAL](#) suite or [SL](#) in that column satisfies the [License](#) requirement for access to (or management of) that [Server](#) Product’s base or additive functions. [CAL](#) suites must be purchased after the Product’s Date Available or have active SA coverage on such date to satisfy access requirements for the current version of the [Server](#) Product.

Note: Office 365 Education E1 and Office 365 Nonprofit E1 do not satisfy the License requirement for access to (or management of) the Products in this table. A license for the Core CAL and Enterprise CAL Suite includes with active SA coverage provides rights equivalent to System Center Endpoint Protection 1606. A license for the Enterprise CAL Suite with active SA coverage provides rights equivalent to Data Loss Prevention and Exchange Online Protection.

Appendix B – Software Assurance

Purchasing Software Assurance

There are three different levels of commitment Customer may select when purchasing SA, which may vary by program. Customer can:

1. Commit to attaching SA on all platform products.
2. Commit to attaching SA on all purchases under a particular Product pool (Applications, Systems or Servers), referred to as Software Assurance Membership (SAM).
3. Purchase SA on individual Products without making any commitment to expanding SA to other Products.

SA must be acquired at the time of acquiring the [License](#) or upon renewal of an existing SA term. Unless otherwise stated, only licenses for the latest version of a Product are eligible for SA. In the case of a transfer of perpetual [Licenses](#), the transferee may acquire SA for such transferred [Licenses](#) within 30 days from the date of transfer and provided that the transferor maintained active SA for the [Licenses](#) up until the date of transfer.

Customers may have the option to acquire SA for certain licenses purchased from the Retail channel (full packaged product) or from an Original Equipment Manufacturer (OEM), as described in the table below. Under Open Value, this option applies only to non-Organization-wide/ Company-wide products. Under Enterprise Agreements, it applies only to Additional Products within 90 days from the date of purchase. Customers who acquire SA for OEM or retail licenses have the option of installing and using the Volume Licensing software for the current version at any time.

Pool	Full Packaged Products	OEM	Programs
Application Pool	N/A	SA available only as outlined below	Applies to Open License, MPSA, Select, Select Plus and non Organization wide under Open Value and Additional Products under Enterprise Agreements. It does not apply to Enterprise Products under Open Value and Enterprise Agreements.
Server Pool	SA available	SA available	

Customers who acquire Microsoft Office Professional 2016 from an OEM may acquire SA for Microsoft Office Standard 2016 in the Open License programs, Select and Select Plus programs, and non Company-wide under Open Value within 90 days from the date of OEM purchase.

Enterprise Agreement customers who transitioned to an Online Service or who purchased a From SA subscription License in lieu of renewing SA may reattach SA to a License at anniversary or renewal without purchasing a new License. SA must be ordered for that License for the remainder of the enrollment term. SA coverage may not exceed the quantity of perpetual Licenses for which SA was current at the time of any prior transition or renewal and may not be reattached to transferred Licenses.

[Table of Contents](#) / [Glossary](#) / [Index](#)

Renewing Software Assurance

Renewing Coverage under the Same Agreement

Terms for renewing SA under the same program agreement by which it was initially ordered are contained Customer's volume licensing agreements. Customers may renew SA without the need to simultaneously order a License as long as the SA coverage has not expired. In addition, the following terms apply to specific programs as noted:

Open License

SA coverage ordered under an Open License authorization number ends upon expiration of that number. To renew, Customer must submit a renewal order for SA within 90 days after their authorization number expiration date.

Enterprise Agreement

To renew SA coverage under the same enrollment under an Enterprise Agreement, Customer must sign a new 2011 or later Enterprise Enrollment and Agreement (if they have not already), and must submit a renewal order for SA (as applicable) for 1) all Enterprise Products, Application Platform Products, Core Infrastructure Products and Additional Products they wish to renew and 2) any Online Services, accounting for transitions (if applicable).

Enrollment for Application Platform

EAP customers who have previously deferred [Licenses](#) via SA prior L SKUs must buyout their [Licenses](#) before they can renew SA.

Renewing Coverage from a Separate Agreement

Customer may renew SA for any Product if Customer has obtained a perpetual [License](#) and SA for that Product under a previous agreement in the same Volume Licensing Program, provided that 1) Customer's new agreement enrollment, or order (for MPSA) must be effective no later than the day following the date of expiration of the previous agreement or enrollment, and 2) the SA renewal order must be placed prior to the expiration of prior SA coverage, unless such coverage is being renewed from an Open License Agreement. In that case, Customers have 90 days from the expiration to place the order.

Customer may also renew SA from one Volume Licensing program into a different Volume Licensing Program. For Enterprise Products originally purchased under a program with a company-wide coverage requirement, this exception applies only if the customer is renewing SA into the MPSA or a program with a company-wide coverage requirement for Enterprise Products. For Agreement versions 2008 and prior, as long as coverage is renewed within 30 days (90 days if renewing from Open License program), customers will be deemed to have SA coverage during any period of time between when their expiring SA coverage lapsed and when the new coverage begins.

Renewing Software Assurance Coverage for Client Access Licenses (CALs) and Client Management Licenses (MLs)

Transitioning between User and Device CALs: Customers renewing SA for CALs can switch between User and Device. This transition does not change the CAL edition (i.e. Standard to Enterprise).

Transitioning between User and OSE Client MLs: Customers renewing SA for client MLs can switch between User and OSE.

Migration License for Discontinued or End-of-Life Products

“**Qualifying License**,” as used here, refers to a [License](#) with SA coverage as of the date specified and for the Product identified in the product entry referencing this section.

“**Migration License**,” as used here, refers to rights granted in the Product Entry referencing this section.

Unless stated otherwise in the Product Entry:

- Customer may upgrade to and use software under a Migration License in place of software covered by the Qualifying License. The Customer may not use software under both licenses simultaneously.
- Migration Licenses are granted on 1:1 for each of Customer’s Qualifying Licenses.
- If Customer acquired perpetual rights to use software under a Qualifying License, the rights to use software acquired under the Migration License are likewise perpetual; otherwise, rights acquired under a Migration License expire when the underlying Qualifying License expires.
- Upon expiration of SA coverage on the Qualifying License, Customer may acquire SA for the same version and edition of the Product covered by the Migration License, without the need to first acquire separate new Licenses. This option does not apply to customers buying licenses under subscription programs (e.g., Enterprise Subscription Agreements or Open Value Subscription agreements).
- Customer may not transfer Migration Licenses separately from Qualifying Licenses.
- Subsequently acquired licenses for the same discontinued Product under the same enrollment term under an Enterprise or Enterprise Subscription Agreement, Open Value Subscription or Enrollment for Education Solutions, as part of Customer’s scheduled true-up process are also Qualifying Licenses for purposes of the license grant. Coverage for Products under subscription agreements must be continuous.

[Table of Contents](#) / [Glossary](#) / [Index](#)

Software Assurance Benefits

Most SA Benefits are available across each Product Pool, as described in the table below. Active SA for any qualifying Product qualifies Customer for the benefits shown in the table below. Some benefits are awarded based on Customer’s SA spend on a given set of qualifying products within a pool. For these purposes, “SA spend” is not literally Customer’s actual dollars spent, but is an approximation of what Customer has spent on SA coverage for those Products under its Select or Enterprise Enrollment, Select Plus registration or Open agreement (For example, SA only purchases and the SA component of L&SA purchases). For customers under subscription programs, it is an approximation of the total dollars Customer has spent licensing those Products under its enrollment or agreement. Software Assurance Membership (“SAM”) is required for some benefits. Customer’s access and rights to use their SA benefits, generally expires upon expiration of their SA coverage, unless otherwise noted below or in the Product Entries. The benefits are subject to change and may be discontinued at any time without notice. Availability of benefits varies by program, region, fulfillment options and language.

New Version Rights

Customer may upgrade to the latest version of an available Product. If Customer acquires perpetual Licenses through SA, it may deploy new version upgrades for those Licenses after SA coverage has expired, but only to versions released during the active SA coverage. Use of the new version is subject to the [License Terms](#) for that version.

Calculating Software Assurance Benefits Points

Entitlements are calculated on a points-based system for the following benefits:

- Planning Services
- Training Vouchers
- 24x7 Problem Resolution Support (Phone) in MPSA only

Software Assurance Benefits points are calculated based on the number of qualifying licenses, applicable pools, and the points associated with qualifying products as listed in the following table. Points cannot be combined across agreements, enrollments, or Purchasing Accounts to qualify for additional points. Reduction of points as a result of returns and other billing adjustments, where allowed, may result in the loss of entitlements during the present or future entitlement periods.

Office Applications and Server Licenses	Points
Office Application Pool Products (including Office suites, Project Standard and Professional, Visio Standard and Professional), Windows Desktop Operating System Products, Microsoft Dynamics AX Task CAL, Microsoft Dynamics AX Store Server ¹ , Microsoft Dynamics AX Functional CAL ¹ , and Microsoft Dynamics CRM CAL ¹	1
Windows Server Standard (2-pack Core License), System Center Standard Server Management License (2-pack Core License)	5
Windows Server Datacenter (2-pack Core License), System Center Datacenter Server Management License (2-pack Core License)	10
SQL Server Standard edition, Windows Server Standard edition, Microsoft Dynamics CRM Server 2011, System Center Standard Server Management License (2-processor), Visual Studio Professional with MSDN, Visual Studio Test Professional with MSDN, and Microsoft Dynamics AX Enterprise CAL	25
SQL Server Enterprise edition, SQL Server Business Intelligence, Windows Server Enterprise edition and Visual Studio Enterprise with MSDN	50
SQL Server Data Center edition, SQL Parallel Data Warehouse, Windows Server Datacenter edition, Microsoft Dynamics AX Standard Commerce Core Server, and System Center 2012 Datacenter Server Management License (2-processor)	75

Note: For SQL CALs, see the CAL Suites table in this section

¹ For Microsoft Dynamics CRM Professional CAL, 2 points are awarded

Office Online Services and Office Online Server

Users of a device licensed with the qualifying applications may access Office Online services and Office Online Server for editing documents from the [Licensed Device](#). The Primary User of the [Licensed Device](#) may access Office Online services and Office Online Server for editing documents from any device.

Qualifying Desktop Application	Office Online rights
Office Standard Office Professional Plus Office for Mac Standard	Office Online for Office 365 Office Online Server

Users must also be licensed for SharePoint Online or OneDrive for Business plans to access Office Online service.

Planning Services

Customers (other than those purchasing through Academic Programs) with a Company-wide commitment or SAM in the Application and Server Pools are eligible for this benefit. The Planning Services benefit provides qualifying customers with pre-determined customized service offerings.

Qualified customers receive a number of Planning Services days based on the number of SA Benefit points from qualifying licenses. The number of days Customer receives for the available Planning Services offerings are combined into a pool of Planning Services days.

Office Applications and Server Licenses	Points
Office Application Pool Products (including Office suites, Project Standard and Professional, Visio Standard and Professional), Microsoft Dynamics AX Task CAL, Microsoft Dynamics AX Store Server ¹ , Microsoft Dynamics AX Functional CAL ¹ , and Microsoft Dynamics CRM CAL ¹	1
SQL Server Standard edition, Windows Server Standard edition, Microsoft Dynamics CRM Server 2011, Microsoft Dynamics CRM Server 2013 and Microsoft Dynamics CRM Server 2015, System Center 2012 Standard Server Management License (2-processor), Visual Studio Professional with MSDN, and Visual Studio Test Professional with MSDN, and Microsoft Dynamics AX Enterprise CAL	25

SQL Server Enterprise edition, SQL Server Business Intelligence, Windows Server Enterprise edition and Visual Studio Enterprise with MSDN	50
SQL Server Data Center edition, SQL Parallel Data Warehouse, Windows Server Datacenter edition, Microsoft Dynamics AX Standard Commerce Core Server, and System Center 2012 Datacenter Server Management License (2-processor)	75

Note: For SQL CALs, see the CAL Suites table in this section

¹ For Microsoft Dynamics CRM Professional CAL, 2 points are awarded

The total points Customer is eligible for defines the Planning Services Days entitlements as shown below:

Office Applications and/ or Server Licenses Points	200-499	→1,999	→3,999	→29,999	→49,999	→99,999	→199,999	→399,999	→599,999	600,000+
Office Planning Services Days	1	3	5	10	15	20	30	40	50	75

Core CAL Suite and SQL CAL SA coverage counts as one (1) point toward the thresholds in the first column below, Enterprise CAL Suite SA coverage counts as two (2) points toward the thresholds in the first column below:

CAL Suites	200-3,999	→9,999	→99,999	→299,999	→599,999	→600,000+
Office Planning Services Days	1	3	5	7	10	12

Customers may select from available Planning Service offerings provided by qualified Microsoft Partners or Microsoft Affiliates. A list of available services can be found at <http://www.microsoft.com/licensing/software-assurance/planning-services-overview.aspx>.

The list of available services and associated service levels may change at any time. Qualified Providers will provide customers with an outline of the available Scope of Work for each of the above service offerings. Upon request customers can also convert (and un-convert) unused Training Voucher days (see the Training Voucher benefit) at a rate of three Training Voucher days into one Planning Service Day, if they (i) are currently eligible for the Training Voucher benefit, (ii) have activated their Training Voucher benefit, and (iii) have at least 3 unclaimed training days from Training Voucher benefit available for conversion.

- Planning Services may be delivered to Customer by qualified Microsoft Partners or Microsoft Affiliates. Services provided under vouchers are provided under an agreement between Customer and the Qualified Provider Customer can view the list of Qualified Providers here: <http://directory.partners.extranet.microsoft.com/psbproviders>
- Planning Services engagements provide services that covers a pre-determined scope of work that result in a high level deployment plan; the actual deployment of the software cannot be included.
- Planning Services vouchers can only be redeemed by the customer who qualified for the benefit.
- Planning Services vouchers may not be exchanged for cash, monies or other valuable considerations.
- Reduction of qualifying SA coverage as a result of returns and other billing adjustments, where allowed, may lower Customer's Planning Services entitlement days.
- Voucher types may not be combined. Planning Services engagements must not exceed the maximum specified duration per engagement type.
- Vouchers are only valid with qualified Providers for the specific service type for which the voucher is being redeemed.
- Vouchers must be assigned during the SA coverage period.
- Vouchers will expire 180 days from the date of voucher assignment, independent of SA coverage expiration. All services must be delivered (voucher redeemed) prior to voucher expiration. Vouchers that expire prior to SA coverage expiration will return to the available Planning Services pool of days. The tables above show service days available based on a full 3-year enrollment or agreement. Customers who purchase SA coverage for one-year will receive one third of the stated number of service days. Customers who purchase SA coverage for two-years will receive two thirds of the stated number of service days.

Completed deliverables submitted by the Qualified Provider at the end of the engagement to Microsoft may be used by Microsoft for quality assurance purposes and may be shared with Customer's Microsoft account team for that purpose.

Enterprise Source Licensing Program

Customers with 10,000 or more licensed desktops with SA coverage in the systems pool may be eligible to access to Microsoft Windows source code for internal development and support. Academic programs are eligible for the Microsoft Research Source Licensing Program.

Training Vouchers

Customers (other than those purchasing through Academic Programs) with a Company-wide commitment or SAM in the application or systems Product pools are eligible for Microsoft Training Vouchers granting a specific number of training days as described below.

Program	Office System Application Pool products	Systems Pool
Open Value	2 days per 50 licenses (maximum 20 days)	1 day per 50 licenses (maximum 10 days)
SAM 1-249	2 days per 50 licenses or points	1 day per 50 licenses or points
SAM 250-2,399	20 days per eligible enrollment or Purchasing Account	10 days per eligible enrollment or Purchasing Account
SAM 2,400-5,999	30 days*	15 days*
SAM 6,000-14,999	50 days*	25 days*

SAM 15,000 – 29,999	110 days*	55 days*
SAM 30,000 – 49,999	160 days*	80 days*
SAM 50,000 – 99,999	250 days*	125 days*
SAM 100,000 – 199,999	400 days*	200 days*
SAM 200,000 – 399,999	600 days*	300 days*
SAM 400,000 – 599,999	800 days*	400 days*
SAM 600,000 +	1400 days*	700 days*

*Number of days per eligible enrollment, agreement, or Purchasing Account

- Services provided under vouchers are provided under an agreement between Customer and the qualified Microsoft Learning Partner.
- Courses delivered in an accelerated format require voucher days equivalent to the number of course days for the course delivery set in the SATV Voucher Validation and Reservation System.
- The voucher is only redeemable for days of instructor-led training with qualified Microsoft Learning Partners on approved courses. Custom courses (other than accelerated delivery of approved courses, custom courses compiled solely from approved courses or pre-approved exceptions based on systems issues or pilot programs) are not eligible for coverage by these vouchers.
- Vouchers cannot be used to cover any fees related to a customer not showing up for a reserved course.
- Vouchers may only be redeemed by the individual approved by the customer to use the voucher.
- Vouchers may not be exchanged for cash, monies or other valuable considerations.
- Vouchers must be assigned during the SA coverage period.
- Vouchers will expire 180 days from the date of voucher assignment. Vouchers that expire prior to SA coverage expiration will return to the available Training Voucher pool of days.
- One Training Voucher day is equal to the equivalent of one training session day.
- Vouchers may be used to reserve training with only one qualified Microsoft Learning Partner at a time.
- Reduction of the number of qualifying licenses for which SA is acquired as a result of returns and other billing adjustments, where allowed, may lower Customer’s Training Vouchers service level eligibility.
- The table above shows training credits available based on a full 3-year enrollment or agreement. Customers who purchase SA coverage for one-year will receive one third of the stated number of training credits. Customers who purchase SA coverage for two-years will receive two thirds of the stated number of training credits.

E-Learning

This benefit varies by Applications, Systems, and Servers. Eligible customers will receive one access code (for Applications, Systems, and/or Servers) per qualifying enrollment/agreement. Customers with qualifying Server Products are eligible to use hosted E-Learning Server courses but not SCORM-compliant content. Customers with Office 365 Pro Plus are eligible to use hosted Office 365 related E-Learning courses only (SCORM-compliant content is not eligible).

The maximum number of users for which a Customer may use the E-Learning training is equal to the number of licensed copies of qualifying products that Customer has enrolled in SA. Customers must designate one user for each qualifying license. Access cannot be transferred from one user to another.

Home Use Program

Customer’s employees, who are users of the licensed qualifying applications identified in the table below may acquire a single License for the corresponding Home Use Program software, to be installed on one device (either a PC or a Mac, specific to the software that is purchased) Academic Select (without SAM), Academic Select Plus (without SAM), and Academic Open programs are not eligible for this benefit.

Home Use Licenses expire with termination of employment, termination or expiration of SA coverage for the copy of the corresponding desktop application that employee uses at work, if the employee is no longer a user of the licensed copy of the software, or upon the employee’s installation and use of any prior or later version of that desktop application pursuant to a Home Use Program license.

The terms of use for the Home Use Program software are between Microsoft and Customer’s employee and are accessed through the Home Use Program website.

Microsoft assumes no responsibility for compliance with any employment-benefit, tax or reporting obligation that either Customer or its employees may have.

Qualifying Desktop Application	Corresponding Home Use Program License
Office Standard 2010/2013/2016 Office Professional Plus 2010/2013/2016 Office for Mac Standard 2011/Office 2016 for Mac Standard	Office Professional Plus 2016 HUP, or Office 2016 for Mac Home & Business with Lync DL HUP

Project Standard 2010/2013/2016 Project Professional 2010/2013/2016	Project Professional 2016 HUP

For more information, including information on the future availability of additional Home Use Program software, refer to <http://www.microsoft.com/licensing>.

Microsoft may terminate a customer's participation in the Home Use Program, immediately and without notice, in connection with unauthorized access to or licensing through the Home Use Program website in connection with that customer's program code.

24x7 Problem Resolution Support

Customers (other than those purchasing through Academic Programs) with SA coverage are eligible for 24x7 Problem Resolution Support.

24x7 Problem Resolution Support provides assistance for problems with specific symptoms encountered while using Microsoft products. Microsoft will make reasonable efforts to assist Customer with support requests in a manner consistent with Microsoft Product Support policies. Microsoft reserves the right to refuse unreasonable requests for support services, and may refer Customers to an additional service level agreement which may require an additional charge.

Products that are currently in Mainstream Support as set forth in Microsoft's Support Lifecycle Policy are eligible for 24x7 Problem Resolution Support. Microsoft can add support for new Products or discontinue support for existing Products. Microsoft will notify Customer if Customer's implementation of Microsoft products cannot be supported. If Customer does not modify the implementation to make it effectively supportable within 30 days after the notice, Microsoft will not be obligated to provide additional support services for that implementation.

An assisted break-fix support request, also known as an incident, is defined as a single support issue and the reasonable effort needed to resolve it. A single support issue is a problem that cannot be broken down into subordinate issues. If a problem consists of subordinate issues, each shall be considered a separate incident. In certain situations, Microsoft may provide a modification to the commercially available Microsoft Product software code to address specific critical problems ("Hotfix(es)") in response to an assisted break-fix support request. Hotfixes are designed to address Customer's specific problems and are not regression tested.

Phone Support Incident Awards for all programs except MPSA

The number of permitted phone support incidents varies by customer based upon their SA spend and payment option. SA-spend-based incidents are earned based on server and desktop SA spend under a qualifying Select or Enterprise enrollment, Select Plus registration, Open Value Agreement or Open License Authorization number. Microsoft will award one incident for each Server SA or CAL SA spend of at least \$20,000. Microsoft will award one incident for each Systems Pool or Applications Pool SA spend of at least \$200,000. The table below shows the approximate currency equivalents for SA-spend-based awards for agreements based in currencies other than USD. Due to the fluctuation of exchange rates, this table is subject to change.

Currency Name	Currency Code	Server / CAL - Incident Award Increments	IW / Client - Incident Award Increments
US Dollar	USD	\$20,000	\$200,000

India Rupee	INR	INR 1,000,000	INR 10,000,000
Russian Ruble	RUB	RUB 660,000	RUB 6,600,000

Phone Support Incidents that have not been used will expire at the expiration of SA coverage. Phone Support Incidents may not be transferred between enrollments or agreements.

Access to local phone support is available during business hours found on the website <http://support.microsoft.com/gp/saphone>. After-hours phone support may be provided through regional and international support centers. After-hours phone support can only be used to initiate business critical support requests. Business hours are determined on a region-by-region basis. Phone support assistance is not available in all languages in all regions.

Phone Support Incidents Awards for MPSA

The number of permitted phone support incidents varies based upon Customer’s SA benefits points earned. If Customer has SA coverage on at least one qualifying Server software Product, Customer is entitled to a complimentary incident. The number of phone support incidents to which Customer is entitled is based on the total calculated points earned through Customer’s Purchasing Account, as shown below (refer to the ‘Calculating Software Assurance Benefits Points’ section of this document for details of how SA Benefits points are calculated):

Pool	Points per phone support incident
Applications and Systems (combined)	2,000
Server	400
CAL	400

Incidents are entitled over the term of the SA coverage and are available for use from the start of Customer’s SA coverage, regardless of whether or not Customer has chosen to spread payments. Purchases made after the initial order will trigger recalculation of the incidents awarded and the annual allotment. Phone Support Incidents that have not been used will expire at the expiration of SA coverage. Phone Support Incidents may not be transferred between Purchasing Accounts.

Access to local phone support is available during business hours found on the website <http://support.microsoft.com/gp/saphone>. After-hours phone support may be provided through regional and international support centers. After-hours phone support can only be used to initiate business critical support requests. Business hours are determined on a region-by-region basis. Phone support assistance is not available in all languages in all regions.

Web-Based Incidents

Customers (other than Academic Select License, Select Plus for Academic, Academic Open License, Campus and School Agreement, Open Value Subscription – Education Solutions, and Open License) with Standard, Enterprise and Datacenter Editions of server software covered with SA have access to electronic web-based Problem Resolution Support services on an as needed basis. Access to the electronic support sites is available 24 hours per day, 7 days a week, though responses will occur during Business Hours. Incidents initiated via the Web then converted to phone resolution by Customer will count against the available phone incident balance upon resolution. Incidents initiated via the Web then followed up via phone by Microsoft will not count against the available phone incident balance if resolution continues on Web, email and other electronic means.

SA is required for both server software and related CALs for Web Support incidents. Customers may only submit web-based Problem Resolution Support requests on those licensed copies of server software covered with SA.

Support Contacts

The number of permitted support contacts varies by Volume Licensing program and number of licenses covered under SA, as shown below. Contacts must be named individuals and can include individuals from outside Customer’s organization. However, an organization, department or group name may not be listed as a contact.

Benefits	OL	OV	S/S+: EA Level A	S/S+: EA Level B	S/S+: EA Level C & MPSA	S/S+: EA Level D
# of Problem Resolution Phone Support Contacts	As Needed	As Needed	As Needed	As Needed	As Needed	As Needed
# of Authorized Web Support Contacts	NA	1	2	3	8	16

Service Level for Software Assurance Customers

Estimated response times by severity level and Customer’s responsibilities are defined in the following table:

Severity	Situation	Microsoft’s Expected Response	Customer’s Expected Response
A. Submission via phone	Critical business impact: Customer’s business has significant loss or degradation of services	1st call response in 2 hours or less based on support offering Microsoft Resources at Customer site as required.	Allocation of appropriate resources to sustain continuous effort on a 24x7 basis Rapid access and response from change control authority Management notification
B. Submission via phone	Moderate business impact: Customer’s business has moderate loss or degradation of services but work can reasonably continue in an impaired manner.	1st call response in 4 hours or less based on support offering Effort during Business Hours only	Allocation of appropriate resources to sustain Business Hours continuous effort Access and response from change control authority within 4 Business Hours

C. Submission via phone or web	Minimum business impact: Customer's business is substantially functioning with minor or no impediments of services.	1st response in one business day or less based on support offering Effort during Business Hours only	Accurate contact information on case owner Responsive within one business day.
--------------------------------	--	---	---

1 Contact Microsoft representative for local business hours.

2 Microsoft may need to downgrade the severity level if Customer is not able to provide adequate resources or responses to enable Microsoft to continue with problem resolution efforts.

Conversion of Software Assurance 24x7 Problem Resolution Support Incidents to Premier Support Services

With the exception of MPSA, Customers may convert SA 24x7 Problem Resolution Support Incidents (SA PRS Incidents, or "SAB") to Premier Problem Resolution Support (PRS) hours or Dedicated Support Engineer (DSE) hours (applicable for reactive support activities only).

These services are for use consistent with their Premier Service plan at the time of transfer. The conversion is based on a local rate calculation that will be provided by their Premier Account Team. Customers may be required to purchase additional Support Account Management hours before converting SA PRS incidents. SA PRS incidents that are converted to Premier are considered Premier Problem Resolution Support hours and are subject to the Premier Services Description. Once converted, incidents cannot be returned to Customer's SA allowance.

Additional Business Provisions

SA spend may not be combined across Select or Enterprise enrollments, Select Plus registrations, Purchasing Accounts, or Open Value Agreements to qualify for additional awards. Spending within each enrollment, agreement, or Purchasing Accounts will be used to determine the award for that enrollment, agreement, or Purchasing Accounts.

Reduction of SA Spend as a result of returns and other billing adjustments, where allowed, may result in the loss of Support eligibility or Phone incident awards during the present or future award periods.

SCE Eligibility

Customers who have an SCE with a minimum annual average SA spend of \$250,000 on total of qualifying products in either the Application Platform or the CIS Suite and who have an active Premier Services Agreement are eligible for Unlimited 24x7 Problem Resolution Support (PRS) incidents. The two eligible SCE components qualify separately for Unlimited 24x7 Problem Resolution Support. Products listed below, that are currently in Mainstream or Extended Support as set forth in Microsoft's Support Lifecycle Policy in line with a Customer's Premier contract, are included in this benefit.

The qualifying Application Platform Products are:

- SQL Server (Standard, Standard Core, Enterprise Core, Business Intelligence and Parallel Data Warehouse and CALs)
- BizTalk Server (Standard, Enterprise, and Branch)
- Office SharePoint Server

The qualifying products from the Core Infrastructure Component are:

- CIS Suite Datacenter (Windows Server Datacenter and System Center Datacenter)
- CIS Suite Standard (Windows Server Standard and System Center Standard)

The table below lists the SA spend threshold conversions for agreements based in currencies other than USD. Due to the fluctuation of exchange rates, this table is subject to change without notice.

Currency	Currency Code	Minimum Annual Average SA spend to qualify for Unlimited 24x7 PRS
US Dollar	USD	250,000
Australian Dollar	AUD	375,000
Canadian Dollar	CAD	337,500
Swiss Franc	CHF	412,500
China Renminbi	CNY	2,062,500
Danish Krone	DKK	2,000,000
EURO	EUR	268,750
UK Pound	GBP	168,750
Japanese Yen	JPY	30,000,000
Korean Won	KRW	300,000,000
Norwegian Krone	NOK	2,062,500
New Zealand Dollar	NZD	437,500
Swedish Krona	SEK	2,500,000
New Taiwan Dollar	TWD	8,750,000
India Rupee	INR	12,500,000
Russian Ruble	RUB	8,250,000

When committed annual average SA spend on qualifying Application Platform and/or Core Infrastructure products eligible for Unlimited 24x7 PRS is higher than \$250,000, Microsoft will not award incidents based on actual SA spend on these products. If Customer becomes eligible for Unlimited 24x7 PRS midstream, any incident previously awarded based on SA spend and not consumed will be subtracted from Customer's balance. Unlimited 24x7 PRS incidents cannot be converted to Premier Problem Resolution Support hours or incidents.

Parallel Data Warehouse Eligibility

Customers who acquire licenses for SQL Server Enterprise Edition, deploy Parallel Data Warehouse ("PDW") and have an active Premier Services Agreement are eligible for Unlimited 24x7 PRS incidents, regardless of being enrolled in an SCE or their SCE spend.

While all qualifying customers will receive an unlimited number of 24x7 PRS incidents, the number of permitted support contacts to manage Unlimited 24x7 PRS does vary by size of the SA spend. All eligible customers are entitled to at least four authorized contacts plus one additional contact per every additional \$125,000 of SA spend under their SCE or VL program (s) under which they purchased licenses for SQL Server Enterprise Edition, deploy PDW. For agreements in foreign currencies, eligible customers are entitled to at least four authorized contacts plus one additional contact for each incremental SA spend amount equivalent to \$125,000 of annual average SA spend in the applicable foreign currency. See table below:

The following table applies to customers who have an SCE or have licenses for PDW:

Annual Average SA spend	Permitted support contacts
\$250,000 - \$374,999	4
\$375,000 - \$499,999	5
\$500,000 - \$624,999	6
\$625,000 - \$749,999	7
\$750,000 - \$874,999	8

The number of permitted support contacts for MPSA is 8 regardless of SA spend. The Unlimited 24x7 PRS benefit only includes Problem Resolution Services. Any time spent by the Technical Account Manager (TAM) or the Designated Support Engineer (DSE) on the resolution of the incident will be accounted for under Customer's Premier Services Agreement.

Note: Customers currently licensed for PDW maintain this benefit as detailed in the [June 2016 Product Terms](#).

Extended HotFix Support

Extended Hotfix Support is available to customers who have signed a Premier or Essential Support agreement and have purchased SA under the following programs:

- Customers (other than those purchasing through Academic Programs) with SAM coverage for Applications Pool qualify for Extended Hotfix Support for Application pool products.
- Customers (other than those purchasing through Academic Programs) with SAM coverage for Systems pool qualify for Extended Hotfix Support for Windows desktop operating system and/or Windows Embedded operating system (with SAM coverage on a Windows Embedded product).
- Customers (other than those purchasing through Academic Programs) with SA on at least one server product qualify for Extended Hotfix Support for Server products. The following server products are covered: Microsoft Exchange Server, Microsoft SQL Server, System Center, and Windows Server.

Extended Hotfix Support is a benefit for older software versions that have transitioned from Mainstream to Extended Support. For customers who have signed a Premier or Essential Support agreement, the annual fees for an Extended Support contract are waived. Customers are still responsible for the fees for individual Hotfixes.

Step-Up License Availability

The Step-Up License must be acquired, and is valid only when acquired, under the same volume licensing agreement and enrollment (if any), under which SA coverage for the qualifying product was acquired. Customer's right to the use of software under a Step-Up License is conditioned on their having and retaining a License for the qualifying product. Customers' perpetual rights under the Step-Up License supersede and replace the underlying License for the qualifying product. Servers – Disaster Recovery Rights

For each [Instance](#) of eligible server software Customer runs in a [Physical OSE](#) or [Virtual OSE](#) on a [Licensed Server](#), it may temporarily run a backup [Instance](#) in a [Physical OSE](#) or [Virtual OSE](#) on either, another one of its [Servers](#) dedicated to disaster recovery, or, for [Instances](#) of eligible software other than Windows Server, on Microsoft Azure Services, provided the backup [Instance](#) is managed by Azure Site Recovery to Azure. The [License Terms](#) for the software and the following limitations apply to Customer's use of the backup [Instance](#).

The backup [Instance](#) can run only during the following exception periods:

- For brief periods of disaster recovery testing within one week every 90 days;
- During a disaster, while the production [Server](#) being recovered is down; and
- Around the time of a disaster, for a brief period, to assist in the transfer between the primary production server and the disaster recovery [Server](#).

In order to use the software under disaster recovery rights, Customer must comply with the following terms:

- The [OSE](#) on the disaster recovery [Server](#) must not be running at any other times except as above.
- The [OSE](#) on the disaster recovery [Server](#) may not be in the same cluster as the production [Server](#).
- Other than backup instances run on Microsoft Azure Services, Windows Server [License](#) is not required for the disaster recovery [Server](#) if the following conditions are met:
 - The Hyper-V role within Windows Server is used to replicate [Virtual OSEs](#) from the production [Server](#) at a primary site to a disaster recovery [Server](#).
 - The disaster recovery [Server](#) may be used only to
 - run hardware virtualization software, such as Hyper-V,
 - provide hardware virtualization services,
 - run software agents to manage the hardware virtualization software,
 - serve as a destination for replication,
 - receive replicated [Virtual OSEs](#), test failover,
 - await failover of the [Virtual OSEs](#), and
 - run disaster recovery workloads as described above.
 - The disaster recovery [Server](#) may not be used as a production [Server](#).
- Use of the software backup [Instance](#) should comply with the [License Terms](#) for the software.
- Once the disaster recovery process is complete and the production [Server](#) is recovered, the backup [Instance](#) must not be running at any other times except those times allowed here.
- Maintain SA coverage for all [CALs](#), External Connector licenses and Server [Management Licenses](#) under which it accesses the backup instance and manage the [OSEs](#) in which that software runs.
- Customer's right to run the backup [Instances](#) ends when Customer's Software Assurance coverage ends.

License Mobility

License Mobility Across Server Farms

Under License Mobility Across Server Farms, Customer may reassign any of its [Licenses](#) which are designated as having License Mobility and for which it has SA to any of its [Licensed Servers](#) located within the same [Server Farm](#) as often as needed. Customer may also reassign these [Licenses](#) from one [Server Farm](#) to another, but not on a short-term basis (i.e., not within 90 days of the last assignment). Products used for Self-Hosting may be used at the same time under License Mobility Across Server Farms rights.

License Mobility through Software Assurance

Under License Mobility Through Software Assurance (SA), Customer may move its licensed software to shared servers under any of its [Licenses](#) which are designated as having [License Mobility](#) for which it has SA, subject to the requirements below. Products used for Self-Hosting may be used at the same time under License Mobility through SA rights, subject to the limitations of the Self-Hosting License Terms.

Permitted Use:

With License Mobility through SA, Customer may:

- Run its licensed software on shared servers;

- Access that software under access licenses and for which it has SA, and under its User and Device SLs that permit access to the Products;
- Manage its OSEs that it uses on shared servers; and/or
- Manage its OSEs that it uses on its servers using software that it runs on shared servers.

Requirements:

To use License Mobility through SA, Customer must:

- Run its licensed software and manage its OSEs on shared servers under the terms of its volume licensing agreement;
- Deploy its Licenses only with Microsoft Azure Platform Services or qualified License Mobility through Software Assurance Partner; and
- Complete and submit the License Mobility Validation form with each License Mobility through Software Assurance Partner who will run its licensed software on their shared servers.

Customer may move its licensed software from shared servers back to its Licensed Servers or to another party’s shared servers, but not on a short term basis (not within 90 days of the last assignment). Customer may also move Instances run or OSEs managed under a particular License from shared servers in one Server Farm to its shared servers in another Server Farm, but not on a short-term basis (not within 90 days of the last assignment). OSEs managed under the same License must be in the same Server Farm. Customer agrees that it will be responsible for third parties’ actions with regard to software deployed and managed on its behalf. Except as provided below, the License Terms applicable to the Product together with the License Mobility through SA terms govern its use. The License Mobility through SA terms supersede any conflicting License terms for a Product when License Mobility through SA is used. Some Products, as outlined below, have different use rights for shared servers under License Mobility through SA:

License Model	Product/Product Type	License	Permitted Number of: OSEs or Cores per License
Per Core/CAL	External Connector Licenses	Each External Connector License with active SA coverage	1 OSE per license
Server/CAL	SQL Server	Each Server License with active SA coverage	1 OSE per license
Per-Core	All eligible Products	Each Core License with active SA coverage	One virtual core (subject to the product use rights including the requirement of a minimum of 4 cores per OSE)
Management Servers	System Center 2016 Standard	Each Management License with active SA coverage	2 Managed OSEs per Licensed Server
Management Servers	System Center 2016 Datacenter	Each Management License with active SA coverage	10 Managed OSEs per Licensed Server

Fail-over Rights

For Products that are also granted Fail-Over Rights, Customer may run passive fail-over Instances on the qualifying shared servers in anticipation of a fail-over event. The number of licenses that otherwise would be required to run the passive fail-over Instances must not exceed the number of licenses required to run the corresponding production Instances on the same partner’s shared servers.

Servers – Self Hosted Applications

Self-Hosted Applications means those Products for which Self-Hosted rights apply.

Despite any terms to the contrary in Customer’s volume licensing agreement including the Product Terms, Customer may run licensed copies of Self-Hosted Applications that interact directly or indirectly with its software to create a unified solution (“Unified Solution”) and permit third parties to use it, subject to the terms below.

Requirements

Customer must have the required Microsoft Licenses and SA for:

- the Self-Hosted Applications run as part of the Unified Solution; and
- all access Licenses used to make the Unified Solution available to External Users.

All Microsoft software used to create and deliver the Unified Solution must be:

- licensed through a Volume Licensing program; and
- eligible for Self Hosting under these License Terms.

If Customer delivers the Unified Solution from shared servers, Customer may not use Windows Server (nor Remote Desktop Services External Connector License or any other Windows Server access license) as a Self-Hosted Application. Instead, Customer must use Windows Server software licensed through a License Mobility through Software Assurance Partner or Customer’s Services Provider Licensing Agreement, or under another Microsoft Volume Licensing offering permitting use on shared servers. Other Products used in a Unified Solution delivered from shared servers must have License Mobility through Software Assurance.

Customer’s software must:

1. add significant and primary functionality to the Self-Hosted Applications that are part of the Unified Solution (dashboards, HTML editors, utilities, and similar technologies alone are not a primary service and/or application of a Unified Solution);
2. be the principal service and/or application of the Unified Solution, and must not allow direct access to the Self-Hosted Applications by any end user of the Unified Solution;
3. be delivered to end users over the Internet, a telephone network, or a private network from servers under the day to day control of Customer or a third party other than the end user of the Unified Solution (the Unified Solution may not be loaded onto the end user's device); and
4. be owned, not licensed, by it, except that its software may include non-substantive third party software that is embedded in, or operates in support of, its software.

All use of the Self-Hosted Applications remains governed by the [License Terms](#) for those products. Customer may not transfer [Licenses](#) acquired under its volume licensing agreement except as permitted in that agreement.

Associated Business Rules

All Professional Services provide support for commercially released, generally available Microsoft Products (unless specifically excluded on the Microsoft Premier On-Line Web site or the Microsoft Support Lifecycle Web site). Professional Services will generally be charged on an hourly basis, provided remotely, and in English (unless another language is available). Professional Services will be provided in the country in which the VL agreement is signed. On-Site visits are not pre-paid and are subject to resource availability. All Professional Services not consumed on an annual basis will be forfeited. Upon Customer request, Microsoft may access Customer's system via remote dial-in to analyze problems.

Microsoft Digital Advisory Services Offerings

The Digital Advisory Services offerings contain the following components which will be provided for each year of the Customer's Enterprise Agreement:

Area	Enterprise Strategy Connect	Enterprise Strategy Foundation	Enterprise Strategy Portfolio
SKU Product Family	9TH-xxxx	8A3-xxxx	9RO-xxxx
Service Delivery	Up to 400 hours in aggregate of a Microsoft Digital Advisor and the Enterprise Service Delivery Team	Up to 800 hours in aggregate of a Microsoft Digital Advisor and the Enterprise Service Delivery Team	Up to 1600 hours in aggregate of a Microsoft Digital Advisor and the Enterprise Service Delivery Team
Services Delivery Plan (SDP)			
Digital Advisory Network			
Enterprise Strategy Library			

Digital Advisory Service Modules

The Digital Advisory engagement includes one or more Digital Advisory service modules, as documented in the Service Delivery Plan.

Services Out of Scope

The Professional Services in a Digital Advisory engagement do not include problem resolution or break fix support, review of non-Microsoft source code, or technical or architectural consultation beyond the deliverables as described in a Services Delivery Plan. For any non-Microsoft source code, Microsoft's Professional Services will be limited to analysis of binary data only, such as a process dump or network monitor trace.

Customer Responsibilities

Customer agrees to cooperate with Microsoft as part of the Digital Advisory engagement, including but not limited to making Customer's representatives, IT staff, and resources available to Microsoft, providing accurate and complete information, and timely completing responsibilities assigned to Customer by Microsoft. Where onsite visits of Microsoft Consultants are mutually agreed and not pre-paid, Customer is responsible for reasonable travel and living expenses.

Sales Productivity Accelerator Offerings

Sales Productivity Accelerator Overview

The Sales Productivity Accelerator is a service provided by Microsoft Services over the course of a four (4)-week-term to deliver a fixed-scope implementation of Microsoft Dynamics CRM Online.

The Sales Productivity Accelerator includes the following deliverables:

- **Service Delivery Plan:** created by a Microsoft Consultant to meet the customer's business goals and objectives.
- **Workshops:** will devote up to a total of sixteen (16) hours for workshops:
 - Up to two (2) discovery workshops, to explore and define key use cases and business requirements, as provided by Customer, to configuration settings;
 - Up to four (4) design review workshops during the Build phase.
- **Reporting:** One (1) native Microsoft Dynamics CRM Online dashboard with up to four (4) native components and two (2) Excel Power View Reports using Power BI Pro5 configured for up to two (2). The reports display up to two (2) interactive charts per entity with data sourced from Microsoft Dynamics CRM Online.
- **Configuration:** Microsoft Dynamics CRM Online will be configured to support up to a total of ten (10) users. During this time, Microsoft will devote up to sixty-four (64) hours to configure the lead thru opportunity processes, 3 security roles, 3 persona's leveraging out of the box security roles, SharePoint and Yammer integration with Microsoft Dynamics CRM Online.
- **Testing:** will devote up to twenty-six (26) hours devoted to up to two (2) tests (e.g., System Test & UAT).
- **Training and Knowledge Transfer:** Provide one (1) product-oriented training for Customer's users, for up to a total of four (4) hours.
- **Deployment Support:** Provide up to forty (40) hours of deployment and go-live support (week 4) subject to the pre-determined project scope and requirements.

Customer Responsibilities

Customer agrees to cooperate with Microsoft as part of the Sales Productivity Accelerator service, including but not limited to making Customer's representatives, IT staff, and resources available to Microsoft, providing accurate and complete information, and timely completing responsibilities assigned to Customer by Microsoft. Where onsite visits of Microsoft Consultants are mutually agreed and not pre-paid, Customer is responsible for reasonable travel and living expenses.

[Table of Contents](#) / [Glossary](#) / [Index](#)

Appendix D – Program Agreement Supplemental Terms

The terms and conditions below apply to Customer's volume licensing agreement, as noted.

Supplemental Terms for Select Plus Program

Select Plus requires a minimum order quantity of 500 points per pool during the first year. This order quantity requirement may be waived if a Qualified Contract is supplied.

Price Levels in Select Plus

Customer's prices are based upon agreement between Customer and Customer's reseller. However, Microsoft provides reseller with the following price and point criteria to help guide reseller to end customer pricing:

Select Plus Price Level-Commercial	Annual Point Minimums per Pool
A	500
B	4,000
C	10,000
D	25,000

Definition of Management for Qualified Devices

If Customer's volume licensing agreement refers to the Product Terms, the Product List, or the PUR for defining managed Qualified Devices, the following terms apply. Customer "manages" any device on which it directly or indirectly controls one or more operating system environments. For example, Customer manages any device:

- it allows to join its domain, or
- it authenticates as a requirement to use applications while on its premises, or
- it installs agents on (e.g., anti-virus, antimalware or other agents mandated by the Customer's policy), or
- to which it directly or indirectly applies and enforces group policies, or
- on which it solicits or receives data about, and, configures, or gives instructions to hardware or software that is directly or indirectly associated with an operating system environment, or
- it allows to access a virtual desktop infrastructure (VDI) outside of Windows SA, Microsoft Intune (Device) or Windows Virtual Desktop Access Roaming Rights.

A device that accesses a VDI under Roaming Rights only or utilizes Windows To Go on a Qualifying Third Party Device off the Customer's premises only, and is not managed for other purposes as described here, is not considered "managed" for purposes of this definition.

Online Services in the Open Programs

Under the Open License, Open Value, and Open Value Subscription programs, the subscription period for Online Services starts at the time of product key activation and not the time of order. Once the product key is activated, Microsoft will not accept return requests submitted by Microsoft's partners.

Customer qualifies for the Open Value program with a minimum purchase of 5 licenses. Online Services User Subscription Licenses (User SLs) can be counted toward the minimum quantity of 5 licenses. However, 5 User SLs alone does not meet the minimum for Open Value Organization Wide and Open Value Subscription. For OV Organization Wide and OV Subscription the initial order must include a minimum of 5 Desktop Platform or Desktop Component Licenses in addition to any User SLs.

Supplemental Terms for Professional Services – Legacy Agreements

Customer's right to use of any consulting and support services Microsoft performs ("Professional Services") purchased from the Product Terms are governed by (1) customer's volume licensing agreement, and (2) any master-level Microsoft Services agreement customer may have in place at the time of purchase. In the event of a conflict, the most current Professional Services agreement controls. If Customer's master agreement for volume licensing is a Microsoft Business Agreement version dated prior to September, 2007 or otherwise does not include terms for Professional Services, and Customer has not signed any other master-level Microsoft Services agreement, the following supplemental terms apply to any Professional Services purchased and used by Customer.

Use, Ownership, and License Rights

Fixes

If Microsoft provides Product Fixes, modifications or enhancements, or their derivatives, either released generally (such as Product service packs) or to address a specific issue for Customer (collectively, "Fixes"), such Fixes are licensed under the same terms as the Product to which it applies. If the Fixes are not provided for a specific product, any use terms Microsoft provides with the Fixes will apply

Pre-Existing Work

All rights in any computer code or non-code based written materials developed or otherwise obtained independent of the Professional Services provided to Customer (“Pre-Existing Work”) shall remain the sole property of the party providing it. Each party may use, reproduce and modify the other party’s Pre-Existing Work only as needed to perform obligations related to Professional Services. Except as may be otherwise expressly agreed by the parties in writing, upon payment in full Microsoft grants Customer a non-exclusive, perpetual, fully paid-up license to use, reproduce and modify (if applicable) any Microsoft Pre-existing Work provided as part of a Services Deliverable, solely in the form delivered to Customer, and solely for Customer’s internal business purposes. The license to Microsoft’s Pre-Existing Work is conditioned upon Customer’s compliance with the terms of Customer’s volume licensing agreement.

Services Deliverables

Any computer code or materials other than Products or Fixes that Microsoft leaves with Customer at the conclusion of Microsoft’s performance of Professional Services are considered Services Deliverables. Upon payment in full for the Professional Services, Microsoft grants Customer a non-exclusive, non-transferable, perpetual license to reproduce, use, and modify the Services Deliverables solely for Customer’s internal business purposes, subject to the terms and conditions governing the Professional Services and Customer’s volume licensing agreement.

Use of technical information from Professional Services

Microsoft may use any technical information it derives from providing Professional Services for problem resolution, troubleshooting, product functionality enhancements, in Fixes, and for Microsoft’s knowledge base. Microsoft agrees not to identify Customer or disclose any of Customer’s Confidential Information as part of such use.

Open Source License Restrictions

Customer must not install or use non-Microsoft software or technology in any way that would subject Microsoft’s intellectual property to obligations beyond those included in these Professional Services terms or Customer’s volume licensing agreement.

Affiliates’ Rights

Customer may sublicense the rights to use Services Deliverables to its Affiliates, but Customer’s Affiliates may not sub-license these rights. Customer is liable for ensuring its Affiliates’ compliance with these Professional Services terms and Customer’s volume licensing agreement.

Warranties and Limitations of Liability

Warranty for Professional Services

Microsoft warrants that it will perform the Professional Services with professional care and skill. If Microsoft fails to do so and Customer notifies Microsoft within 90 days of the date the Professional Services were performed, then Microsoft will, as the sole remedy for the breach of the warranty, either re-perform the Professional Services or return the price Customer paid for them. **Except for the limited warranty above, Microsoft provides no other warranties or conditions and disclaims any other express, implied or statutory warranties, including warranties of quality, title, non-infringement, merchantability and fitness for a particular purpose.**

Limitation of Liability

Microsoft’s liability for direct damages will be limited to the amounts Customer was required to pay for the Professional Services. In the case of services provided free of charge, or code Customer is authorized to redistribute to third parties without separate payment to Microsoft, Microsoft’s liability is limited to direct damages up to U.S. \$5,000. **In no event will either party be liable for indirect, incidental, special, punitive, or consequential damages, including loss of use, loss of profits, or interruption of business, however caused or on any theory of liability in relation to the Professional Services. No limitation or exclusions will apply to liability arising out of either party’s (1) confidentiality obligations; or (2) violation of the other party’s intellectual property rights.**

Appendix E – Promotions

System Center Client Management Suite Promotion

The right to use System Center Client Management Suite will be included with all Enterprise CAL Suite and Enterprise CAL Suite Bridge for Office 365 (with or without Microsoft Intune) licenses ordered through December 31, 2016.

Azure Compute Capacity Promotion

From November 1, 2015 to December 31, 2016, the Azure Compute Capacity promo offers discounts on A, D, and G Series Compute instances as non-coterminous 12 month subscriptions.

Appendix F - Storage Array Terms

Availability

The Storage Array is available for delivery in the following geographies only: Australia, Austria, Bahrain, Belgium, Brazil, Canada, Chile, Colombia, Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, India, Indonesia, Ireland, Israel, Italy, Japan, Kenya, Kuwait, Macau, Malaysia, Mexico, Netherlands, New Zealand, Nigeria, Norway, Peru, Philippines, Poland, Portugal, Puerto Rico, Qatar, Romania, Russia, Saudi Arabia, Singapore, Slovakia, Slovenia, South Africa, Spain, South Korea, Sri Lanka, Sweden, Switzerland, Taiwan, Thailand, Turkey, United Arab Emirates, Ukraine, United Kingdom, United States, Vietnam.

Shipment and Title

Shipping terms for orders placed are: (i) FCA (Incoterms 2010) Supplier Shipping dock; (ii) Microsoft will pre-pay and invoice freight to Customer; and (iii) for shipments outside the United States, Customer is responsible for clearing the goods for import and paying all import costs including duties, taxes, and other clearance charges. Microsoft will supply the Storage Array to the Customer on a No Charge basis and title for the Storage Array and the risk of loss will pass to Customer upon delivery to the carrier and completion of export formalities at the point of origin. All scheduled shipment dates are estimates only. The Storage Array will be shipped to the address provided by Customer using the StorSimple online form (provided separately). For US transactions, Microsoft has remitted sales tax on the value of the Storage Array(s) based upon the ship-to address provided by Customer for the delivery of the Storage Array(s). For US and Canada transactions, the address used for the shipment of the Storage Array(s) is used strictly for purposes of shipping the device to Customer and does not impact any other ship-to (or Tax Address) provided on Customer's volume license agreement used for purposes of charging sales tax to Customer on purchases made under that volume license agreement.

Storage Array Software

Microsoft grants Customer a non-exclusive, non-transferrable, limited license to use the Software that runs in the Storage Array ("Storage Array Software") only in connection with Customer's use of the Storage Array. Customer's use of the Storage Array Software is subject to the terms of Customer's volume license agreement governing Software, and Microsoft reserves all other rights.

Restrictions

Customer may not use the Storage Array Software for comparisons or "benchmarking" except for Customer's internal purposes or publish or disclose the results thereof.

Certain Third Party Open Source Software

The Storage Array Software may be distributed with certain independent code (e.g., firmware) that is licensed under the GNU General Public License ("GPL"), the GNU Library/Lesser General Public License ("LGPL"), the Apache License Version 2.0 ("Apache License") and/or other open-source licenses ("Open-Source Code"). Any such Open-Source Code is identified in the Third Party Software Notices located at: <http://go.microsoft.com/fwlink/?LinkId=627000>, and is licensed to Customer in accordance with the applicable open-source licenses.

Activation/Consent for Internet-based Services

Activation associates the use of the Storage Array Software with a specific device. During activation and subsequent use of the device, the Storage Array Software may send information about the Storage Array Software and device to Microsoft. This information includes the version, language, and product key of the Storage Array Software, Customer's Internet protocol address, operating system, browser and name, the version of the Storage Array Software Customer is using, and the language code of the Storage Array running the Storage Array Software. Microsoft uses this information to make the Internet-based services available to Customer. By using the Storage Array and Storage Array Software, Customer consents to the transmission of this information to Microsoft.

Storage Array Software Updates

The update service for Storage Array Software will allow Customer to download available updates manually, or opt-in to receiving updates automatically. Available updates from Microsoft will be licensed by Microsoft and any third party updates will be licensed by the applicable third party.

Limited Hardware Warranty

Microsoft warrants that the Storage Array hardware will not malfunction due to a defect in materials or workmanship under ordinary commercial use as described in the applicable product documentation for a period of ninety (90) days from the date of delivery to Customer. If it does not and Customer notifies Microsoft within the warranty term, Microsoft will repair or replace it (at Microsoft's election) at no charge. This is the only warranty Microsoft gives for the Storage Array, and Customer waives any breach of warranty claims not made during the warranty period. This warranty does not cover problems caused by accident, abuse or use in a manner inconsistent with Customer's volume license agreement or the product documentation and it is void if the Storage Array is opened or modified, damaged by use with Non-Microsoft Products, or damaged by maintenance or repair performed by anyone other than Microsoft or a Microsoft authorized vendor. **Microsoft provides no other warranties or**

conditions and disclaims any other express, implied or statutory warranties, including without limitation, warranties of quality, title, non-infringement, merchantability, and fitness for a particular purpose.

Indemnification. Defense of third party claims

Microsoft will defend Customer against any claims made by an unaffiliated third party that a Storage Array infringes its patent, copyright or trademark or makes unlawful use of its Trade Secret, subject to the terms of the Customer's volume license agreement regarding defense of third party claims.

Limitation of Liability

For any claim related to a Storage Array, each party's maximum, aggregate liability to the other is limited to direct damages finally awarded in an amount not to exceed the amounts Customer was required to pay for the applicable Storage Array. **In no event will either party be liable for indirect, incidental, special, punitive, or consequential damages, including loss of use, loss of profits, or interruption of business, however caused or on any theory of liability. No limitation or exclusions will apply to liability arising out of either party's (1) confidentiality obligations; (2) defense obligations; or (3) violation of the other party's intellectual property rights.**

U.S. Export Control Laws

The Storage Arrays are subject to the provisions in Customer's volume licensing agreement regarding U.S. export jurisdiction.

Collection of Diagnostic Information

Microsoft may collect information to help Microsoft diagnose problems related to the Storage Array and provide potential solutions. If Microsoft receives indication of a potential problem, it may collect information from the Storage Array through the Azure StorSimple Management Service. The types of information collected may include files that help describe or identify the problem, such as operational logs, whether the problem occurred in the hardware or software, the type and severity of the problem, and device status. Microsoft will not collect memory dumps, keys, passwords, or data that a Customer stores on the Storage Array. Microsoft uses the information to improve the Storage Array and related services, and may also use it to improve third party hardware and firmware included as part of the Storage Array. To the extent that Microsoft provides its hardware vendor with specific information, Microsoft will only provide the information in an anonymized data format unless Microsoft obtains Customer's explicit consent. Microsoft will provide this information for the purpose of resolving an identified hardware related issue. To learn more about privacy for the Storage Array, refer to <https://www.microsoft.com/en-us/privacystatement>.

Government Use

Customer understands that in exchange for purchasing one or more StorSimple Monetary Commitment Offerings, Microsoft will provide the Storage Array and StorSimple Support to Customer at no additional charge. Microsoft waives any and all entitlement to compensation from Customer for such Storage Array or StorSimple Standard Support. Microsoft intends that the provision of the Storage Array and StorSimple Standard Support to Customer without charge will fully comply with applicable gift, ethics and other laws and regulations related to gratuitous goods and services. Microsoft intends that the provision of Storage Arrays and StorSimple Standard Support shall be for the sole benefit and use of Customer and not for the personal use or benefit of any individual government employee.
